Environment Roundabout - January 2010

Saving Planet Earth

Overview and Introduction

The Environment Roundabout is an annual multi agency event for Year 5 pupils to raise awareness of environmental issues. The aim of the event is to educate young people on environmental issues (both local and global). In addition, it is hoped young people will take away what they have learnt and would be encouraged to take individual action to improve their local environment.

Visiting 'Planet CO2'

Quotes

'I really know how to help the World, you really helped me. Thank you'

'I plan to save the Planet by recycling more'

Who Took Part

Year 5 pupils from Fens Primary, Brougham Primary, West View Primary, West Park Primary, Throston Primary, Owton Manor Primary, St Bega's RC Primary, St Joseph's RC Primary, Barnard Grove Primary, Sacred Heart Primary, St Peter's, Elwick, Primary, Greatham Primary and Clavering Primary.

Group 'Flight Navigator'

What Happened/How Was it Done?

Pupils were split into small groups and sent on a 'space themed mission' to save Planet Earth. Each group had to visit six fictitious worlds

Visiting 'Planet Trash'

(Planet Anhydrite, Planet CO₂, Planet Extinction, Planet Smog, Planet Toxicara and Planet Trash) where they learnt lessons that can be used to save Planet Earth. Each group had to collect six stamps on their passport which was then traded in for jigsaw puzzle pieces, forming the final challenge.
