Hartlepool Borough Council Submission Local Plan 2017: Equality Impact Assessment

Author, Service area, Date

Fiona Riley (Senior Planning Policy Officer), Planning Policy Team, June 2017

Who else has been involved in writing this EIA?

Matthew King (Planning Policy Team Leader), Jim Ferguson (Planning and Development Manager) and Steve Russell (Support Manager).

What proposal is this EIA assessing?

The EIA is assessing the Hartlepool Borough Council's Local Plan Submission version. The Local Plan details the planning policies proposed by Hartlepool Borough Council for the period up to 2031. Hartlepool Borough Council is committed to promoting a community and organisational culture that fully respects and values everyone's differences and needs. Equality and diversity is integral to our core business, our staff and our service users. In working towards our commitment to equality we will:

- Work towards providing services which meet the needs of all sections of our communities.
- Ensure that respect and dignity is valued as a core principle for all.
- Promote equality and fair treatment and equal access to our services and services commissioned by us.
- Offer a range of translation and interpretation services for those whose first language is not English and also provide information in other formats such as Braille and audio.
- Actively seek the views of our customers and take account of their comments and complaints and allow a reasonable timescale for consultations.
- Consult a range of communities and avoid selecting single minority ethnic organisations or individuals.
- Assess and monitor the impact of new and existing policies and plans on equality groups.
- Publish an annual report that outlines progress on eliminating discrimination and promoting equality of opportunities.
- Promote the community cohesion framework.
- Provide straight forward information about our service.
- Strive for a workforce that reflects the diversity of the population of Hartlepool.

What is the purpose of your proposal and what is it expected to achieve?

The purpose of the Equality Impact Assessment (EIA) is to assess the potential impact of the policies in the Local Plan on different groups within Hartlepool. An assessment of Local Plan policies has been undertaken in relation to:

- Age: older age groups
- Age: younger age groups / children
- Disability
- Gender
- Gender reassignment
- Marriage and civil partnership status
- Pregnancy and maternity
- Race
- Religion or belief
- Sexual orientation

The following questions were used to undertake the EIA:

- Does the policy/decision target or exclude a specific equality group or community?
- Does it affect some equality groups or communities differently and can this be justified?
- Is the policy or service likely to be equally accessed by all equality groups and communities? If not can this be justified?
- Are there any barriers that might make access difficult or stop different groups or communities accessing the policy or service?
- Could the policy promote equality and good relations between different groups? How?

The Local Plan sets out proposals for development and growth and policies to protect and enhance the natural and built environment of Hartlepool. This will replace the 2006 Local Plan and contains:

- A long term vision for the borough and objectives for future development up to 2031 which describes how key issues that have been identified will be tackled and how the borough will evolve over the course of the plan period.
- Site allocations to deliver that development.
- More general development focussed policies.

The Draft Local Plan has been developed in consideration of the evidence base, National Planning Policy and guidance, feedback from public consultations, a Sustainability Appraisal and Habitats Regulations Assessment has been undertaken on the local plan.

In addition to the EIA, the assessment undertaken considers the impact of the policies within the plan on child and adult poverty, this is a strategic priority for Hartlepool Borough Council, as such the assessment ensures that any negative impacts have been considered and mitigated.

Is there any relevance to the aims of the public sector equality duty?

There are three aims of the Equality Act, these are:

- **Eliminate Unlawful discrimination**, harassment, victimisation, and any other conduct prohibited by the act
- **Advance Equality of Opportunity**, between people who share protected characteristics and those who don't.
- **Foster Good Relations**, between people who share a protected characteristic and people who do not share it.

How the implementation of the Local Plan will relate to these is outlined in brief below.

Aim	Yes, No, or N/A	Details if 'yes'
<p>Eliminate Unlawful discrimination, harassment, victimisation, and any other conduct prohibited by the act.</p>	<p>Yes</p>	<p>The Plan aims to ensure the sustainable development of Hartlepool for the next 15years. The promotion of balanced and inclusive communities that benefit all is integral to achieving this. The polices set out within the plan guide development and promote opportunities, for example they include polices for the allocation of housing sites to meet need, allocate employment sites and spaces for commercial development to boost and support the economy as well as protecting and enhancing the natural and built environment.</p>
<p>Advance Equality of Opportunity, between people who share protected characteristics and those who don't.</p>	<p>Yes</p>	<p>The Plan aims to promote balanced, inclusive and sustainable communities that benefit all. Many of the policies within the Plan will benefit the wider community in Hartlepool and not specifically those with protected characteristics, either positively or negatively. However, some policies will have the potential for some direct or indirect impact on equalities issues, such as Policy HSG13: Gypsy and Traveller provision.</p>
<p>Foster Good Relations, between people who share a protected characteristic and people who do not share it.</p>	<p>Yes</p>	<p>The plan and the policies set out within it are inclusive and aim to foster good relations with all sections of the community; this includes those within the protected characteristics classifications.</p>

Analysis of Policies – Equality and Poverty Impact Assessment of Each Local Plan Policy

Analysis by characteristic - Summary

The Local Plan contains 87 policies and has the underlying principle to deliver sustainable development to secure a better quality of life for everyone now and for future generations. All the policies within the Local Plan contribute towards achieving sustainable development with policies promoting the location of new homes, jobs and economic growth, conservation and enhancement of the natural environment and built heritage, improved infrastructure (both highway and community), renewable energy, green spaces and the development of balanced communities.

Many of the policies within the Plan will benefit the wider community across Hartlepool and not specifically those with protected characteristics. However, some policies will have the potential for some direct or indirect impact on different groups. Each policy has been assessed for their potential positive, negative or neutral impact on potentially vulnerable equalities groups as well as the potential to impact on Child and Adult poverty.

Age

The age protected characteristic includes the consideration of all ages in society, the assessment of which recognises that vulnerability can change across age groups and the impact of a policy will not necessarily be uniform across all ages. The assessment identified that the impact of Local Plan policies were generally positive for all with some having a particularly positive impacts on this group. The Local Plan aims to provide sustainable development addressing the needs of current and wider population; this includes provision and access to healthcare, education and training, jobs, appropriate accommodation and leisure facilities. The policies within the plan are written positively to ensure that needs are appropriately assessed and addressed through individual development proposals, for example Policy QP1 (Planning Obligations) ensures that education provision is enhanced to accommodate increased demand from new development and Policy HSG2 (Overall Housing Mix) ensures that new housing provision meets the identified need at the local level, including bungalows and affordable housing. Which are needed to support the ageing population.

Disability

The policies within the Local Plan were identified as being generally positive for all within society, the policies within the plan are written positively with some policies having positive impacts on this group. The policies in the Local Plan should address the needs of those with disabilities, for example Policy INF3 (University Hospital of Hartlepool) and INF4 (Community Infrastructure) support accessibility to health, education and community facilities for all, this has the potential to be of particular benefit for people with disabilities.

Gender reassignment

The policies within the Local Plan are regarded as being generally positive for all and as having no impact on this group. The promotion of equal opportunities is integral to the integrity of the plan to support sustainable development. The Plan is inclusive of all members of the community and does not discriminate against any gender reassignment.

Race

Child and Adult Poverty

The assessment of the impact of the policies in the plan on Child and Adult poverty supports that the plan is written in a positive manner with the aim of benefitting all of those in society. The plan supports the development and enhancement of the local economy, which will support the employment sector, with the aim of providing jobs for the local community. The Housing Section of the Local Plan ensures that the development of housing provision across the borough provides for the needs of all,. HSG9 (Affordable Housing Provision) aims to ensure that this includes appropriate levels of affordable housing. The Infrastructure Chapter aims to ensure that the Borough is well connected and different forms of sustainable transport are encouraged. The Local Plan allocates local centres across neighbourhoods, with the aim of encouraging local services within neighbourhoods, improving access to service and amenities for all. The Local Plan includes a policy (QP7) which aims to improve the energy efficiency of new homes, as well as benefits to help minimising climate change; the policy will help to lower running costs of homes.

Consultation and Mitigation

<p>Has there been consultation / is consultation planned with people who will be affected by this Policy? How has this affected your decision making?</p>	<p>The development of the Hartlepool Local Plan has been through a number of regulatory stages prior to the document being submitted to the Secretary of State to be considered for soundness. This has taken place over a the last couple of years and included three stages of statutory consultation, giving residents, businesses and statutory partners the opportunity to comment on the developing policies within the plan. Consultation statements have been prepared to respond to the comments made through the consultation process which details how the Council will respond to the comments made. At the last round of consultation, notification of the process was sent to every household in the town, public consultation events were held across the town, these were widely advertised to ensure everybody had the opportunity to engage with the Local Plan development process if they wished to do so. The key stages of the development of the Hartlepool Local Plan are detailed below.</p> 
<p>As a result of your decision how can you mitigate negative / maximise positive outcomes and foster good relationships?</p>	<p>The development of the policies have included equality and sustainability assessments which have been undertaken, these have thoroughly assessed each of the policies within the emerging plan, where necessary mitigation requirements have been written into the emerging policies. The EIA does not identify any negative impacts on any of the protected characteristics as a result of the implementation of the emerging policies.</p>
<p>Describe how you will address and monitor the impact</p>	
<p>1. No Impact - No Major Change</p>	<p>The assessment outcome demonstrates no negative impact on any protected characteristics or poverty has been identified. As a result no changes have been identified for the emerging plan. There is an accompanying monitoring framework to the plan, this set out the key indicators which will inform progress on the plan. An annual monitoring report will be produced.</p>
<p>2. Adjust / Change Policy</p>	<p>N/A</p>
<p>3. Adverse Impact but continue as is</p>	<p>N/A</p>
<p>4. Stop / Remove Policy / Proposal</p>	<p>N/A</p>
