

User Guidance Note: Detailed SFRA Maps

The detailed strategic flood risk maps are interactive. This facility can be used by clicking from the drop down menu that is located under the following text:

Please select a data type from the drop-down menu below that you wish to view:

The following options are available in the drop-down menu:

- Flood Zones
- Historic Flooding
- Risk of Flooding from Surface Water
- Flood Risk Management
- Areas Susceptible to Ground Water Flooding
- Risk of Flooding from Rivers and Sea

Please ensure that the detailed maps are opened in Adobe Reader to ensure they display correctly with the option to use the interactive function.
