

## **Matter 13 – Natural Environment**

### **Issue 3 - Landscape & Green Infrastructure**

Q15 Is the evidence on playing pitches up-to-date? Has the 2012 strategy been updated?

As chair of Seaton Carew Sports and Social Club covering Archery, Cricket, Football and Rugby the council to my knowledge have not contacted us to discuss the facilities.

The Sports Domes in Seaton Carew are experiencing financial difficulty and it is not clear on how much longer these will be in use.

Q17 Is the Council proposing amendments to the wording of the criteria in Policy NE5 in response to the representation from Sport England [Pub 0089]. Are these revisions necessary for soundness (consistency with national policy)?

I believe it would be useful to get a local input as well as Sport England and other sporting governing bodies representation on these matters.
