EXECUTIVE SUMMARY

Introduction

This Authorities Monitoring Report (AMR) covers the financial year 2019/20 and is the second AMR of the adopted Local Plan (adopted in May 2018). The Local Plan covers the period 2016 to 2031 hence the assessment of policies will cover this period as well.

The AMR is produced by Planning Services on behalf of the Council and relates to the period 1st April 2019 to 31st March 2020. It reviews the progress made on the implementation of the Local Development Scheme (LDS) and generally assesses the effectiveness of planning policies and the extent to which they are being implemented. The LDS that relates to this report was produced in December 2017.

The planning policies assessed in this report, are those of the Hartlepool Local Plan adopted in May 2018. A list of the 2018 Local Plan policies is shown in Appendix 1 and can also be accessed on the Council's website.

Chapter 4 of this report details how the Local Plan policies have, on the whole, been effective in both the management of planning proposals and in the economic, social and environmental development of the borough.

Housing

In accordance with Part 8, 34 (3) of the Town and Country Planning (Local Planning) (England) Regulations 2012, Chapter 4 includes annual numbers of net additional dwellings which have been specified in a Local Plan policy.

The adopted Local Plan identifies an objectively assessed need (OAN) of 287 dwellings per annum which takes into account the predicted household projections over the next 15 years up to 2031, a backlog from previous years and aspirations of the Tees Valley Combined Authority to create more jobs and overcome economic development barriers of which housing is one as outlined in their Strategic Economic Plan (2016-2026). The plan sets a housing requirement of 410 dwellings per annum and this is phased over the plan period. It also factors in a replacement of demolitions on Housing Market Renewal (HMR) sites and an additional 20% affordable housing buffer.

This report covers the first phase of the Local plan housing trajectory which sets a baseline delivery target of 350 dwellings/annum. A gross total of 254 new build homes were delivered this year i.e. 61.6% from greenfield sites such as Tunstall Farm, Wynyard, Coniscliffe Rise and 38.4% from brownfield sites such as Britmag and Raby Gardens. There were no demolitions of permanent dwellings hence the net delivery is 254 homes/annum. It is below the baseline delivery target and the Objectively Assessed Need (OAN) of 287 dwellings/annum. This delivery has increased the net shortfall over the last three years from 85 in 2017/18 to 160 dwellings this year.

It is anticipated that the shortfall will be addressed in the coming years by the ongoing building progress on various housing sites. More sites were granted planning permission this year and these include Duchy in Wynyard, Former Brierton School Site, Seaton Meadows and Station Road at Greatham and altogether will add a gross total of 280 additional dwellings. Building on these sites is expected to commence early next year. It is also anticipated that building at Quarry Farm 2 with planning permission for 220 dwellings will commence next year. Some of the strategic housing sites allocated in the Local Plan (2018) which include more greenfield housing sites may obtain planning permission next year. It is therefore expected that housing delivery will increase next year and the coming years to meet the annual delivery target. The annual target of 350 dwellings is therefore still considered to be an achievable figure and there is currently no need to revise it or any of the housing policies.

This year a total of 74 affordable homes (i.e. 56 houses, 18 bungalows) were delivered on target. They were mainly from the Former Health Centre at Caroline Street, Raby Gardens Phase 2, Marine Point, The Mayfair Centre, Tunstall Farm and refurbished homes from various locations. This year the set target of 74 affordable homes/annum was met for the first time since 2016/17. Of the 74 homes delivered; 60 are new builds (81.1%), 13 refurbished (17.6%) and 1 old build which was purchased outright. The Borough Council will continue to support the delivery of additional affordable housing through building on council-owned land, partnership working with Registered Providers in the borough and through securing affordable housing contributions as part of private residential developments. This year planning permissions were granted for 36 affordable homes in Greatham at Station Road and 81 affordable bungalows at the Former Brierton School site and building has commenced on both sites. It is therefore anticipated that next year there will be good levels of delivery of affordable homes and bungalows in the Borough.

Economy, Employment, Town Centre, Tourism

There is no recorded loss of employment land this year and no new employment land uptake either. There is therefore no change in the amount of available employment land and it remains at 197.2ha. All industrial activities and businesses are on-going with only one business (Omega Plastics) closing down at Queens Meadow leaving vacant floor space area of 905.8m². There is no recorded unjustified employment land take up at non-allocated sites hence the employment policies are being implemented and there is therefore no need for review.

The town centre still continues to develop as a retail hub with A1 and A2 uses accounting for well over 50% of all uses in the town centre. There have been no town centre use completions recorded outside of the town centre boundary. The town centre vacancy rate in terms of floorspace has increased this year to 14.9% from 12% the previous year. This is the highest it has been in the past five years. Lack of high quality shops and vacancy rates in the town centre still remains a challenge. Town centre policies are being well implemented with appropriate planning permissions being granted for town centre uses within the town centre. There is therefore no need to review the town centre retail policies.

Tourism policies within the Local Plan identifies the Town Centre, the Marina, the Headland and Seaton Carew as main tourism destinations and the policies encourage appropriate developments within these areas. However, rural tourism through recreation and leisure developments could be allowed under certain circumstances. This year planning permission was granted at the derelict building the Wesley Chapel in the town centre for change of use to upper floors of main building and annex building into 36-bed hotel; change of use of upper ground floor of main building to mixed A3/A4 Use (restaurant and bar); change of use of lower ground floor of main building to form 5 commercial units (to be in flexible A1 Use (retail), A2 Use (financial and professional services), A3 Use (restaurants and cafes) or A4 Use (drinking establishment). One leisure-related application was granted in the countryside at Summerhill for recreation in line with rural policies that promote tourism in the rural area. Tourism policies are being implemented and there is currently no need for review.

Environmental Quality

Natural Environment

This year there have been no losses or gains in biodiversity habitat in international, national or local sites ecological/wildlife sites. However, High Newton Hanzard Verges, a designated local wildlife site was reassessed in May 2019 and it was found that development in and around the site has resulted in sufficient degradation of the interest features to warrant de-designation. Accordingly, in June 2019 the site was recommended for deletion to the Tees Valley Nature Partnership Natural Assets Working Group (TVNP). When the deletion is actioned by TVNP this will constitute loss of habitat and will be recorded then.

The quantity and type of green infrastructure lost or gained is not routinely measured or monitored, therefore no definitive measurement can be provided. However, funding for green infrastructure is secured through S106 developer contributions from planning applications and this can be routinely measured. Including cycleways, a total of £54,940.00 has been sought and secured through S106 agreements and a total of £44,842.09 has been received this year for green infrastructure (Appendix 5 and 6).

There has been no overall loss or detrimental change to allocated places of biodiversity importance. There is no need to revise any natural environment or wildlife conservation policies as they are being successfully implemented.

Countryside/Rural Area, Historic Environment

The council continues to closely monitor unjustified developments in the countryside, in particular isolated residential developments outside development limits through the adopted New Dwellings Outside of Development Limits SPD.

There is only one development approved outside the limits to development at Three Gates Farm in Dalton Percy. However, it is justified as it relates to an existing rural business and rural policies promote growth and diversification of the rural economy hence this is positive development in the rural area. There were no permitted

unjustified residential developments in the countryside outside limits to development. The New Dwellings Outside Developments Limits SPD (2015) continues to assist in the protection of the open countryside from unwanted, unsustainable and unjustified developments of isolated dwellings. The rural development policies continue to be implemented and there is therefore no need or justification for a review of those elements of the Local Plan.

This year the council has published a total of 13 historic buildings at risk i.e. 1 by Grade 1, 10 by Grade 2 and 2 by locally listed. This list highlights vulnerable heritage assets across the borough. There has been no Conservation Area Appraisal this year but work is still on going on reviewing the Seaton Carew Conservation Area Appraisal.

Waste, Renewable Energy

The total amount of waste arising this year decreased in comparison to last year. The proportion of recycled or composted waste has slightly increased this year from last year's 33.5% to 33.62% this year. The Council introduced comingled recycling collections in 2012, which, whilst making recycling easier for residents, had an impact on the quality of material collected. This is being continually addressed by initial sorting (removal of large items of contamination) at the Council's own waste transfer station before the materials are transferred to the sorting facility.

Sustainable Transport, Access to the Countryside

The Local Plan makes provision for the continued improvement of roads and development of a comprehensive network of cycle routes linking the main areas of the borough. The council has continued to improve access to the countryside and furniture within the countryside so that a more inclusive network will be available to a broader user base. This year a total length of 3.97km of cycleway was improved i.e. at Bishop Cuthbert and A689 to Brenda Road. No new cycleways or roads were created and none were diverted or extinguished.

The Council is currently working with TVCA on the Tees Valley Local Cycling and Walking Infrastructure Plan (LCWIP). This is a Tees Valley wide plan which includes Hartlepool. Key projects will be the development of cycling corridors. For Hartlepool the corridor being explored is the A689 from the Borough border to the Town Centre. Through planning applications for housing at Wynyard and the South West extension, the council has secured and received a total of approximately £109,460.00 in developer contributions towards delivering sustainable modes of travelling and this includes cycle routes on these sites and ensuring they are connected to the existing cycle network.

This year 5.17 km of coastal path was created and improvement works on 0.3 km of coastal path were done at Tees Road/A178, Graythorp Industrial Estate, Conoco Phillips and Greatham Creek. Improvement works were done on permissive paths at Springwell Community Woodland in Clavering. Considerable amount of work has started on improvement and creation of more public footpaths and this is expected to be complete next year.

Neighbourhood Plans, Community Infrastructure Levy, Duty to Cooperate, S106 Developer Contributions

The Rural Neighbourhood Plan now forms part of the planning framework and is available on the council website. Work on the Headland and Wynyard neighbourhood plans is ongoing and details are given in Appendix 2 of this report.

In fulfilling the requirements of section 33A of the Planning and Compulsory Purchase Act 2004 (Duty to co-operate in relation to planning of sustainable development) and as set out in the Town and Country Planning (Local Planning) (England) Regulations 2012, part 2, duty to cooperate, (4) (1); the council has continued to cooperate and actively engage with public bodies to develop strategic policies. Further details are available in Appendix 3 of this report.

Whilst the Council will keep the situation under review, the present stance is that the Community Infrastructure Levy (CIL) will not be taken forward within the Borough. Further details on CIL are in Appendix 4 of this report.

In this reporting year 2019/2020, the council received a total of £762,300.35 developer contributions (excluding interest) and £764,473.51 (including interest). There were a total of 11 signed S106 agreements (with a value of £1,309,257.03) from large housing developments across the Borough. Appendices 5 and 6 show the breakdown of the S106 funds; amounts received/sought/secured, where they should be spent and the type of development they should be spent on.

1. INTRODUCTION

- 1.1 Government legislation requires all Local Planning Authorities to prepare a Local Plan monitoring report, the Authorities Monitoring Report (AMR). It is prepared in accordance to the provisions of the Localism Act 2011 which have led to Regulation 34 in The Town and Country Planning (Local Planning) (England) Regulations 2012 prescribing minimum information to be included in monitoring reports, including net additional dwellings, net additional affordable dwellings, community infrastructure levy receipts, the number of neighbourhood plans that have been adopted, and action taken under the duty to co-operate. In essence it is a matter for each Local Planning Authority to decide what to include in their AMR over and above the prescribed minimum information as outlined in The Town and Country Planning (Local Planning) (England) Regulations 2012.
- 1.2 This report is based on the ongoing monitoring of the borough over the past financial year (2019/2020) and will assist us to plan better for the borough. Where policies are failing we will seek to find out why and look to address them so that they perform more appropriately in the future.

Planning Legislation

- 1.3 The Planning and Compulsory Purchase Act 2004 introduced a system of development planning. In light of the Act, planning documents are being prepared and incorporated into a Local Development Framework (LDF). The LDF comprises a portfolio of Local Development Documents which together deliver the spatial planning strategy for Hartlepool (see Diagram 1 below). Some documents are known as Local Development Documents (LDDs) and include Development Plan Documents (DPDs), Supplementary Planning Documents (SPDs) and Neighbourhood Plans.¹ The LDDs set out the spatial planning strategy for Hartlepool. The 2012 regulations² set out what each LDF document should contain and the formal process they should go through.
- 1.4 The other documents that are within the LDF system, but are not termed LDDs, are:
- The Local Development Scheme (LDS) which sets out the programme for preparing LDDs;
 - The Statement of Community Involvement (SCI) which sets out how the Council will involve residents and other interested persons and bodies in the planning process; and
 - The Authorities Monitoring Report³ (AMR) which assesses the implementation of the Local Development Scheme, the extent to which policies in the LDDs

¹ Schedule 9, part 2 (6) (b) of the Localism Act amends 38 (3) of the Planning and Compulsory Purchase Act 2004 to include Neighbourhood Plans as LDD's.

² Town and Country Planning (Local Planning) (England) Regulations 2012

³ Formally termed the Annual Monitoring Report in line with the Town and Country Planning (Local Development) (England) Regulations 2004, as amended.

are being achieved, provides information with regard to CIL and sets out how the Council has cooperated with other Local Authorities and relevant bodies.⁴

Diagram 1: Hartlepool Local Development Framework

LOCAL DEVELOPMENT FRAMEWORK A portfolio of local development and other documents

These documents will comprise the Development Plan for the area.				These documents help to give further information and detail to support the Development Plan Documents.							These Documents and the highlighted Development Plan Documents must be prepared.		

The Authorities Monitoring Report

1.5 Local planning authorities are required to examine certain matters in their Monitoring Reports⁵. The key tasks for this monitoring report are as follows:

- Review actual progress in terms of the preparation of documents specified in the Local Development Scheme against the timetable and

⁴ Part 2, 4 of the Town and Country Planning (Local Planning) (England) Regulations 2012 sets out the bodies that the council must cooperate with.

⁵ Part 8 Town and Country Planning (Local Planning) (England) Regulations 2012

milestones set out in the scheme, identifying if any are behind timetable together with the reasons and setting out a timetable for revising the scheme (Section 3).

- Assess the extent to which planning policies are being implemented, including any justification as to why policies are not being implemented and any steps that the council intend to take to secure that the policy is implemented. This assessment will be of the policies from adopted Local Plan (Section 4).
- Contain details of any Neighbourhood Development Order or a Neighbourhood Development Plan that are being prepared or have been adopted within the borough (Appendix 4).
- Provide information regarding the progress of the Community Infrastructure Levy (Appendix 5).
- Provide information regarding who the council has cooperated with in relation to planning of sustainable development (Appendix 6).

1.6 In terms of assessing the implementation of such policies, the Authorities' Monitoring Report should:

- identify whether policies need adjusting or replacing because they are not working as intended; identify any policies that need changing to reflect changes in national or regional policy; and
- set out whether any policies are to be amended or replaced.

1.7 In order to assess the effectiveness of planning policies, it is important to set out the social, economic and environmental context within which the policies have been formulated, the problems and issues they are intended to tackle, and the opportunities of which advantage can be taken to resolve such problems and issues. Section 2 of this report therefore gives consideration to the key characteristics of Hartlepool and the problems and challenges to be addressed.

1.8 This report, for the period 1st April 2019 to 31st March 2020, gives consideration to the policies of the Hartlepool Local Plan adopted in May 2018 and the Tees Valley Minerals and Waste Core Strategy and the Policies and Sites DPD adopted in September 2011.

2 HARTLEPOOL – KEY CHARACTERISTICS, STATISTICS, PROBLEMS AND CHALLENGES FACED

- 2.1 The key contextual indicators used in this chapter describe the wider characteristics of the borough and will provide the baseline for the analysis of trends, as these become apparent and for assessing in future Authorities' Monitoring Reports, the potential impact future planning policies may have had on these trends.

Hartlepool & the Sub-regional Context

- 2.2 The borough forms part of the Tees Valley along with the boroughs of Darlington, Middlesbrough, Redcar & Cleveland and Stockton-on-Tees.
- 2.3 Hartlepool is an integral part of the Tees Valley region. It is a retail service centre serving the borough and parts of County Durham, in particular Easington and Peterlee. Over recent years the borough has developed as an office and tourism centre. The development of Seaton Carew sea front, the Maritime Experience and the Marina forms an important component of coastal regeneration exploiting the potential of the coast as an economic and tourist driver for the region.

Hartlepool in the Local Context

- 2.4 The original settlement of Hartlepool dates back to Saxon times. Originally an important religious settlement the town's early development resulted from the existence of a safe harbour and its role as a port for the city of Durham and subsequent grant of a Royal Charter from King John in 1201. The town as it is today has grown around the natural haven which became its commercial port and from which its heavy industrial base developed.
- 2.5 The borough of Hartlepool covers an area of approximately 9400 hectares (over 36 square miles). It is bounded to the east by the North Sea and encompasses the main urban area of the town of Hartlepool and a rural hinterland containing the five villages of Hart, Elwick, Dalton Piercy, Newton Bewley and Greatham. The main urban area of Hartlepool is a compact sustainable settlement with many of the needs of the residents in terms of housing, employment, shopping and leisure being able to be met within the borough. The Durham Coast railway line runs through the centre of the town and connects Hartlepool to Newcastle, the rest of Tees Valley, York and London. The A19 trunk road runs north/south through the western rural part of the borough, the A19 and the A1 (M) are readily accessed via the A689 and the A179 roads which originate in the town centre.

Population

- 2.6 In comparison to last year, the population of Hartlepool increased by 0.5% from 93,200 to 93,700 (Table 1). Hartlepool still has the lowest number of residents in the Tees Valley, with a proportion of 13.8% and Stockton-on-Tees has the highest with a proportion of 29.2% (Table 2). The Tees valley sub region's population increased by 0.3%, the regional population by 0.4% and the national population by 0.5%.

Table 1: Population

Area	Population			
	2016/2017	2017/2018	2018/2019	2019/2020
Darlington	105,600	106,300	106,600	106,800
Hartlepool	92,800	93,000	93,200	93,700
Middlesbrough	140,400	140,600	140,600	141,000

2019 Index of Multiple Deprivation (IMD)

- 2.7 The IMD was updated in September 2019, with the previous IMD being that of 2015. The English Indices of Deprivation measure relative levels of deprivation in 32,844 small areas or neighbourhoods, called Lower-layer Super Output Areas (LSOAs), in England. The deprivation in its broadest sense is measured by assessing indicators relating to income, employment, health and disability, education, skills and training, barriers to housing and services, crime and the living environment and combining them into a single deprivation score for each small area in England. This allows each area to be ranked relative to one another according to their level of deprivation.
- 2.8 Nationally, the IMD 2019 ranks Hartlepool as the 25th most deprived Local Authority in England. This is an improvement in comparison to the previous 2015 IMD which ranked Hartlepool at 18th. At a sub-regional level, Hartlepool is better than Middlesbrough which ranked 16th. At 113 Stockton Tees has the highest rank in the Tees Valley, followed by Darlington at 103rd and Redcar at 62nd.
- 2.9 According to the 2019 IMD, Hartlepool has a total count of 16 LSOAs and of these 36.2% are in the first decile rank i.e. 10% of the most deprived nationally. At a sub-regional level Hartlepool is better than Middlesbrough which ranks 1st nationally. In terms of the first decile, Darlington is the least deprived in the Tees Valley, ranking

47th, followed by Stockton ranking 39th and Redcar and Cleveland ranking 29th of the 326 Local Authorities in England. More detailed information on the IMD and how it is calculated is on the following link:

<https://www.gov.uk/government/statistics/english-indices-of-deprivation-2019>

Tourism

- 2.10 Hartlepool has evolved into a place which has an appeal for people to live, work and visit. Its successes include a multi-million pound 500 berth marina and a comprehensive range of eating establishments predominantly situated in Hartlepool Marina – developing a night-time economy. The National Museum of the Royal Navy have taken over and rebranded the former Hartlepool Maritime Experience with exciting plans to invest in new attractions and events to significantly boost visitor numbers.
- 2.11 Work is continuing on the redevelopment of the Hartlepool Waterfront (Former Jacksons Landing site). A £1.4m linear Park has recently been completed on the South side of the site. Site Investigations have commenced to inform the future redevelopment of the site. A Memorandum of Understanding has been signed with the National Museum of the Royal Navy evidencing their commitment to working in partnership towards the long term redevelopment of the area, which includes the creation of a major visitor attraction, hotel and leisure facilities. £20m has been secured from the Tees Valley Combined Authority to help deliver the first phases of development. Feasibility work is continuing on the detailed proposals.
- 2.12 Regarding Seaton Carew regeneration, the £1.3m Seaton Carew Coastal Transformation Project has been successfully delivered with the creation of a new outdoor leisure park with children’s play facilities and water jets, environmental improvements, the installation of “The Waves” public art sculpture and the refurbishment of the Grade II Listed Bus Station and Clock Tower. The derelict Longscar Building has also been demolished and cleared. The Crazy Golf course has been completed and opened to the public this summer. The Longscar Hall demolition has created opportunities for future development on the site.
- 2.13 Shades is progressing with further works to get it project ready in the ISQ area, funding for the film studios has been approved. The waterfront site is still progressing and architects have been appointed. Developments continue on the Fairground Site for car parking and there are further projects to enhance the attractiveness and character of the seaside resort to visitors and to protect the Conservation Area.

Economy and Employment

- 2.14 Table 3 shows that Hartlepool has a lower proportion of economically active people (i.e. aged 16 and above) compared to the national and regional averages. At 7.2%, Hartlepool has the highest unemployment rate and workless households (26.2%) in comparison to all. However, the percentage of economically active people has increased this year to 74.9% compared to 70.9% last year.

Table 3: Labour Supply

Area	Economically Active (16+ years)		Economically Inactive (16+ years)		Unemployed (16+ years)		Workless Households	
	Number	%	Number	%	Number	%	Number	%
Darlington	51,800	79.0	13,300	21	3,200	6.1	6,100	17.9
Hartlepool	43,100	74.9	14,100	28.1	3,100	7.2	7,800	26.2
Middlesbrough	68,000	68.9	27,300	31.1	4,300	6.9	10,600	23.8
Redcar & Cleveland	60,200	72.6	22,200	27.4	3,400	5.6	9,700	23.3
Stockton	94,000	76.4	28,300	23.6	5,200	5.5	13,200	21.1

2.14 Table 4 illustrates the breakdown of percentage of working age population (16-64 years) in employment by main occupation groups. At 16.3%, 'Professional Occupations' constitute the highest socio-economic class in Hartlepool and 'Managers, directors & senior officials' constitute the least at 7.6%. In comparison to last year, there has been an increase in nearly all occupations except for two i.e. 'Caring, leisure & other' and 'Administrative and secretarial occupations' both of which declined.

Table 4: Percentage of working age population (16-64 years) in employment by main occupation groups

Socio-Economic Class	Area							
	Darlington	Hartlepool	Middlesbrough	Redcar & Cleveland	Stockton	Tees Valley	North East	Great Britain
Managers, directors, senior officials	9.2	7.6	5.7	8.4	9.4	8.1	8.5	11.6
Professional occupations	18.4	16.3	15.9	15.1	19.3	17	19.5	21.9
Associate professional & technical	13.9	13.6	11.1	13.4	13.7	13.1	13.5	14.9

- 2.15 Under Universal Credit, a broader span of claimants are required to look for work than under Jobseeker's Allowance. As Universal Credit Full Service continues to be rolled out, the number of people recorded as being on the Claimant Count has risen significantly across the board as shown in Table 5. Hartlepool's out-of-work benefits claimant rates rose significantly from 5.9% last year to 8.5% this year.

Table 5: Unemployment Claimant Rate (% of the working age population claiming job seekers allowance)

Area	2016 Claimant rate	2017 Claimant rate	2018 Claimant rate	2019 Claimant rate	2020 Claimant rate
Darlington	2.7	3.5	3.5	4.5	6.9
Hartlepool	3.7	5.2	6.7	5.9	8.5

Health

- 2.16 According to Public Health England (2019), the health of people in Hartlepool is generally worse than the England average. Hartlepool is one of the 20% most deprived districts/unitary authorities in England and about 28.6% (5,020) of children live in low income families. Life expectancy is 12.5 years lower for men and 10.4 years lower for women in the most deprived areas of Hartlepool than in the least deprived areas.
- 2.17 In terms of child health; in Year 6, 26.9% (311) of children are classified as obese, worse than the average for England. The rate for alcohol-specific hospital admissions among those under 18 is 42 per 100,000 population. This represents 8 admissions per year. Levels of teenage pregnancy, GCSE attainment (average attainment 8 score), breastfeeding and smoking in pregnancy are worse than the England average (Public Health England, 2019)
- 2.18 The rate for alcohol-related harm hospital admissions in adults is 1021 per 100 000 population, worse than the average for England. This represents 934 admissions per year. The rate for self-harm hospital admissions is 264 per 100 000, worse than the average for England. This represents 235 admissions per year. Estimated levels of excess weight in adults (aged 18+), smoking prevalence in adults (aged 18+) and physically active adults (aged 19+) are worse than the England average. The rates of new sexually transmitted infections, killed and seriously injured on roads and new cases of tuberculosis are better than the England average. The rates of statutory homelessness, violent crime (hospital admissions for violence), under 75 mortality

rate from cardiovascular diseases, under 75 mortality rate from cancer and employment (aged 16-64) are worse than the England average.

Lifelong Learning and Skills

- 2.19 Table 6 shows the National Vocational Qualification (NVQ) level attained by the working age population i.e. the 16-64 year age for both males and females. At 27.4% Hartlepool and Middlesbrough both have the lowest proportion of working age residents qualified to NVQ Level 4 and above (i.e. equivalent to degree level). The proportion of working age population with no qualifications in Hartlepool decreased this year.

Table 6: Qualifications/no qualifications % of working age residents (16-64 years)

Area	Qualifications					No Qualifications
	NVQ1+	NVQ2+	NVQ3+	NVQ4+	Other	
Darlington	83.9	74.6	53.2	31.4	6.4	6.6
Hartlepool	81.1	69.9	49.8	27.4	8.0	11
Middlesbrough	74.5	63.5	45.9	27.4	8.5	17.0
Red Car	82.5	70.4	51.8	29.6	6.6	10.9
Stockton	81.8	70.3	53.2	35.2	8.0	10.2

Housing

Strategic Housing Assessment (2015)

- 2.20 The 2015 Hartlepool Borough Council Strategic Housing Market Assessment (SHMA) study has helped inform the production of the Council's 2018 Local Plan and Housing Strategy. The SHMA shows proportion of dwellings in each housing group as assessed (Table 7).

Table 7: Property type and size of occupied dwellings across Hartlepool

Property Type	No. Bedrooms (Table %)					Total
	One	Two	Three	Four	Five/more	
Detached house	0.0	0.6	4.3	7.9	1.7	14.5
Semi-detached house	0.1	5.5	19.9	2.9	0.7	29.2
Terraced/town house	0.0	10.5	16.9	1.7	0.7	29.7
Bungalow	2.5	6.9	2.4	0.2	0.0	12.1
Maisonette	0.8	0.2	0.0	0.0	0.0	1.1
Flat/apartment	7.3	5.0	0.1	0.1	0.0	12.5
Other	0.5	0.4	0.0	0.0	0.0	0.9
Total	11.3	29.2	43.6	12.8	3.1	100

Source: Hartlepool Strategic Housing Market Assessment (2015)

- 2.21 Overall, the vast majority (74.1%) of properties are houses, 12.1% are bungalows, 13.6% are flats/apartments and maisonettes and 0.9% are other types of property including park homes/caravans. Of all occupied properties, 11.3% have one bedroom, 29.2% have two bedrooms, 43.6% have three bedrooms and 15.9% have four or more bedrooms
- 2.22 The imbalance in the housing stock is being addressed on a holistic basis through the 2018 Local Plan and the planned future housing market renewal (HMR) initiatives. The HMR initiatives for clearance and improvement will tackle problems associated with the existing older housing stock and new housing development. They will also help to change the overall balance of housing stock and provide greater choice.
- 2.23 Affordability is still a key issue in Hartlepool as highlighted in the 2015 Hartlepool Strategic Housing Market Assessment and the Council is continuing to invest in more affordable housing in partnership with private developers and local registered providers.

Current House Prices

Table 8: House prices (simple average) and house price index

Area	£ per House Type				House Price Index
	Detached	Semi detached	Terraced	Flat/maisonette	
Darlington	214,084	128,473	95,697	77,076	102.7
Hartlepool	186,965	112,561	78,782	61,569	116.4
Middlesbrough	193,658	113,502	80,328	66,154	103.9
Redcar	194,435	121,734	91,492	63,169	105.1
Stockton	213,616	124,715	96,180	78,956	108.9
North East	217,171	131,054	103,545	87,712	109.6
National	379,284	234,697	202,504	225,479	123.0

Source: Land Registry (<http://landregistry.data.gov.uk/app/ukhpi>), March 2020

- 2.24 Table 8 shows house prices and House Price Index (HPI) for the five local authorities in the Tees Valley. House prices are expressed in terms of simple average price for each house type. The simple average is calculated quarterly taking the sum value of all sales transactions divided by the total number of sales transactions (within a 3 month period).
- 2.25 A House Price Index (HPI) is a weighted, repeat-sales index, meaning that it measures average price changes in repeat sales or re-financings on the same properties. Since the HPI index only includes houses with mortgages within the conforming amount limits, the index has a natural cap and does not account for 'jumbo' mortgages which are for large luxury type of housing. The HPI calculation is based on Land Registry data and the figure is adjusted for sales of differing mixes of house types.
- 2.26 The HPI for Hartlepool has increased from last year's 104 to 116.4 this year. Unlike in previous years where Hartlepool recorded the lowest HPIs in the sub region, this

year prices improved and Hartlepool ranks highest (Table 8). In comparison to last year, house prices have increased for all house types in Hartlepool. The HPI shows rising housing market values nationally.

Community Safety

2.27 Safer Hartlepool Partnership (SHP) and Neighbourhood Policing continue to address community safety. SHP main aim is to reduce acquisitive crime and prevent re-offending.

Table 9: Notifiable offences recorded by the police

	Crime Type	2018/19	2019/20	Change (number)	Change (%)
Publicly Reported Crime (Victim Based Crime)	Violence against the person	3688	4088	400	10.8
	Homicide	2	2	0	0
	Death or injury due to driving	0	0	0	-
	Violence with injury	990	964	-26	-2.6

	Total Police Generated Crime	1367	1694	327	13.0
TOTAL RECORDED CRIME IN HARTLEPOOL		11993	12256	263	3.5

Source: Hartlepool Police, 2020. (+) is increase and (-) is decrease in recorded offences

Key for main category/type (excluding sub categories)

	no change
	change less than 0%
	change 0-10%
	change greater than 10%

- 2.28 Table 9 gives a breakdown of offences by the crime category under which they were recorded by Hartlepool Police during the year and previous years for comparison. These figures are based on the date the crime was recorded not the date the offence occurred. Total recorded crime in Hartlepool has increased by 3.5%. Public reported crime slightly reduced by 0.6%, whereas total police generated crime increased by 13%. Business robbery constitutes the highest increase at 53% whilst shoplifting reduced the most at 26.8%. Although total crime recorded in the town is still high, it is positive to note that some crime categories which have in the past been problematic in the town e.g. robbery, bicycle theft and acquisitive crime have continued to decline this year and these are marked green.

The Environment

- 2.29 Hartlepool has a rich environmental heritage and very diverse wildlife habitats. The built, historic and natural environment within Hartlepool plays host to a wide range of buildings, heritage assets including archaeological remains, wildlife habitats, geological and geomorphological features, landscape types and coastal vistas.

The Built Environment

- 2.30 The town has a long maritime tradition and a strong Christian heritage with the twelfth century St Hilda's church, on the Headland (a Grade I Listed Building) built on the site of a seventh century monastery. Some of the medieval parts of borough, on the Headland are protected by the Town Wall constructed in 1315; the Town Wall is a Scheduled Ancient Monument and Grade I Listed Building. There are eight conservation areas within the borough and 201 Listed Buildings, eight Scheduled Ancient Monuments and one Protected Wreck. One of the town's Victorian parks (Ward Jackson Park) is included on the list of Registered Parks & Gardens.

Geological & Geomorphological Features

- 2.31 The geology of Hartlepool comprises two distinct types:
1. The north of the borough sits on the southern reaches of the Durham Magnesian Limestone Plateau, which is of international geological importance. Although the Magnesian Limestone in Hartlepool is generally too far below the overlying soils to give rise to the characteristic Magnesian Grassland flora found further north, it is exposed in several quarries and road cuttings and forms a spectacular gorge in West Crimdon Dene along the northern boundary of the Borough.
 2. The southern half of the borough sits on Sherwood Sandstone from the Triassic period; a rare exposure on the coast at Long Scar & Little Scar Rocks is a Regionally Important Geological Site. Of more recent geological origin is the Submerged Forest SSSI, which underlies Carr House Sands and is intermittently exposed by the tide. This area of waterlogged peat has yielded pollen, mollusc and other remains, which have been used to establish the pattern of sea-level change in Eastern England over the past 5,000 years.

Wildlife Characteristics

- 2.32 The borough is bordered on the east by the North Sea and features extensive areas of attractive coastline including beaches, dunes and coastal grassland. Much of the inter-tidal area of the coast is internationally important for its bird species and is protected as Teesmouth & Cleveland Coast Special Protection Area/Ramsar site. There are nationally protected Sites of Special Scientific Interest at Hart Warren, the Hartlepool Submerged Forest and Seaton Dunes and Common. Other areas of the coast include part of the Teesmouth National Nature Reserve and Sites of Nature Conservation Interest. Hartlepool only has one inland Site of Special Scientific Interest (SSSI), Hart Bog. This is a small area which has four distinct plant communities and is of particular botanical interest.
- 2.33 The prominent location of the town's Headland, as a first landfall on the east coast, makes it of national significance for the birdwatching community. Inland is an attractive, rolling agricultural landscape including areas of Special Landscape Value. Interspersed in this landscape are a number of fragmented but nevertheless diverse and important wildlife habitats. There are six Local Nature Reserves in the borough and 40 non-statutory geodiversity and biodiversity sites protected as Local Wildlife Sites (LWS) and Local Geological Sites (LGS).
- 2.34 In addition to internationally important numbers of shorebirds, the borough contains some notable examples of wildlife species: grey and common seals are frequent along the coastline with the latter breeding in Seaton Channel. The area of sand dunes, cliffs and grazing marsh along the coast support important species such as burnt tip orchid, northern marsh orchid, early marsh orchid, sea holly and other notable species. There is extensive priority woodland habitat in the Wynyard area and the northern dunes.

Bathing Water

- 2.35 Seaton Beach covers an extensive area and attracts significant numbers of visitors for walking, bathing and windsurfing activities. Seaton Carew Centre and Seaton Carew North Gare (south) both meet the Bathing Water Directives guideline standard which is the highest standard and Seaton Carew North passed the imperative standard which is a basic pass.

Air Quality

- 2.36 Air quality in Hartlepool currently meets statutory standards with no requirement to declare any Air Quality Management Areas.

Culture and Leisure

- 2.37 Museums associated with Hartlepool's maritime heritage and other important cultural facilities including the art gallery and Town Hall theatre which are all located within the central part of the borough and comprise a significant focus for Hartlepool's growing tourism economy. In particular, the Hartlepool Maritime Experience is a major regional/national visitor attraction. There are a number of parks and recreation facilities throughout the town and three green wedges that

provide important links between the countryside and the heart of the urban areas. On the fringes of the built up area are three golf courses and a country park at Summerhill.

Future Challenges

2.38 Hartlepool has, over recent years, seen substantial investment, particularly from government funding streams; this investment has completely transformed the environment, overall prosperity and above all Hartlepool's image. The Council wish to build on the previous successes but are faced with severe budget cuts. Below is an analysis of the main strengths, weaknesses, opportunities and threats facing the borough.

Table 10: Hartlepool SWOT Analysis

Strengths	Weaknesses	Opportunities	Threats
<ul style="list-style-type: none"> • Successful allocation of Enterprise Zones • Compactness of main urban area • Expanding population • Sense of community / belonging • Partnership working • Good track record in delivering physical regeneration • Diverse, high quality and accessible natural environment • Diverse range of heritage assets including the maritime, industrial and religious • Availability of a variety of high quality housing • Successful housing renewal • High levels of accessibility by road • Lack of congestion • Good local road communications • Direct rail link to London • Good local rail services • Active and diverse voluntary and community sector • Positive community engagement • Successful event management • Small business and SME development • Growth of visitor market • High quality tourist attractions • High quality expanding educational facilities. 	<ul style="list-style-type: none"> • Perceived image • Location off main north-south road corridor • High deprivation across large areas of the town • Low employment rates and high level of worklessness • Legacy of declining heavy industrial base • Small service sector • Imbalance in the housing stock • Shortage of adequate affordable housing • Poor health • Low level of skills • High crime rates • Exposed climate • Range and offer of retail facilities • Reductions in public resources have affected regeneration and employment levels. 	<ul style="list-style-type: none"> • Young population, possible asset for future prosperity • Can improve the economy and the growing house choice thus improving the recent stabilisation of population levels • Availability of land to enable diversification of employment opportunities • Potential for development of major research, manufacturing and distribution facilities on A19 corridor • Potential for further tourism investment • Potential for integrated transport links • Major high quality employment opportunities at Victoria Harbour, Queens Meadow and Wynyard Park • Success of Tall Ships races and opportunity to bid for the event in the future • Plans for development of Tees Valley Metro • Established housing market renewal programme • New state of the art hospital site in Wynyard • Potential New Nuclear Power Station • Renewable Energy and Eco Industries • Developing indigenous business start-up and growth • New government guidance in the form of the NPPF and CIL regulations. 	<ul style="list-style-type: none"> • Closure of major employer/s • Expansion of area affected by housing market failure • Climate change and rising sea levels • Lack of financial resources / budget deficits • Increasing car ownership and congestion • Loss of Tees Crossing Project • Access to New hospital • Competition from neighbouring out of town retail parks • Competition from outlying housing markets • Uncertainty in relation to Council budgets • Uncertainty in relation to government funding programmes.

Source: Hartlepool Local Plan (2018)

The main challenges this year and the coming years are similar to those in previous years. In particular Hartlepool is challenged by further public expenditure cuts which are still having to be made, meaning that local services will have to be further scaled down and operated on a more constrained budget. Job losses across the borough are a real threat to the local economy and this is likely to lead to an increase in the number of people seeking welfare benefits in the coming years.

- 2.39 Despite the expenditure cuts Hartlepool will continue to support the development of the local economy and to address the imbalance in the housing stock (including the lack of affordable housing and executive housing) so as to at least maintain the population at its current level and to ensure that the borough remains sustainable and an attractive place to live, work and play.
- 2.40 Planning policies: enable an improvement in the range of housing available (both through demolition and replacement of older terraced housing and provision of a range of new housing); enable the diversification of the local economy and the growth in tourism; encourage the provision of improved transport links and seeks to improve the built and natural environment which will all assist in achieving this aim and improve the quality of life within Hartlepool.
- 2.41 Through policies in the Local Plan and various other strategies and incentives the Council will continue to seek ways to achieve higher economic growth rates in Hartlepool in order to bridge the gap with more prosperous authorities in the region and provide greater opportunities and prosperity for residents.
- 2.42 The attraction and retention of highly skilled workers is viewed as critical to regional and sub-regional economic success, the Council will work with other Tees Valley authorities to ensure the right housing and environmental conditions are available to contribute to population growth and the attraction of key highly skilled workers to the region.

3 IMPLEMENTATION OF THE HARTLEPOOL LOCAL DEVELOPMENT SCHEME

- 3.1 The Hartlepool Local Development Scheme (LDS) sets out a rolling programme for the preparation of Local Development Documents (LDDs) relating to forward planning in Hartlepool.
- 3.2 The LDS is specifically concerned with development documents being prepared over the next three years but also highlights those which are likely to be prepared beyond this period into the future. It sets out the timetable and highlights the key stages for the preparation of new policy documents and when they are proposed to be subject to public consultation. The LDS that relates to this report was approved by Regeneration Services Committee in December 2017.

Implementation of the 2017 Local Development Scheme

- 3.3 Table 11 details the timetable for the 2017 LDS outlining key dates for different stages and delivery of the LDS's main DPD document; the Local Plan (LP) which was adopted early in the financial year in May 2018.
- 3.4 This is the first report covering policies in the 2018 Local Plan. There is no longer a need to review policies from the 2006 Local Plan
- 3.5 To date the following development documents have been adopted within the LDF:
- Local Plan (May 2018)
 - Authorities Monitoring Report (AMR) (March 2020)
 - The Wynyard Masterplan (October 2019)
 - Residential Design SPD (September 2019)
 - Local Development Scheme (LDS) (December 2017)
 - New Dwellings outside of Development Limits SPD (August 2015)
 - Seaton Carew Regeneration SPD (September 2015)
 - Planning Obligations SPD (November 2015)
 - Green Infrastructure SPD (January 2015)
 - Shop Fronts and Commercial Frontages Design Guide SPD (2014)
 - Trees and Development SPD (2013)
 - Tees Valley Joint Minerals & Waste DPDs (September 2011)
 - Transport Assessments & Travel Plans SPD (January 2010)

Other Supplementary Planning Documents currently in production include the following:

- Public Rights of Way SPD; this is currently being publicly consulted upon as from February 2020 and is scheduled for adoption in 2020/2021
- Residential extensions SPD; following public consultation last year, the SPD was amended and presented to the Regeneration Services Committee on 24th July 2019 and was approved to go to full Council meeting in September 2019 to seek approval for adoption. It is on schedule for adoption by summer of 2020/2021

- Statement of Community Involvement (SCI); following public consultation the previous year, the SCI was presented to full council in September 2019 to seek approval to adopt the SCI.

Table 11: Timetable of Hartlepool Local Plan DPD

Table 1: LOCAL PLAN	
OVERVIEW	
Role and content	To set out the vision and spatial strategy for Hartlepool and the objectives and primary policies for meeting the vision.
Geographical Coverage	Borough-wide
Status	Development Plan Document
Conformity	Must reflect the Hartlepool Community Strategy and be in line with National Planning Policy Guidance and meet the Duty to Co-operate
TIMETABLE / KEY DATES	
Stage	Date
Evidence base Production	November 2013 – March 2015
Issues and Option Drafting stage	March - May 2014
Issues and Options extensive public consultation stage	May – July 2014
Preferred Options Drafting stage	August 2014 – March 2016
Preferred Options extensive public consultation stage	May – July 2016
Publication Stage (Reg. 19 Stage)	December 2016 - February 2017
Submission to Secretary of State (Reg. 22 Stage)	March 2017

- 3.6 All the Local Plan milestones and the SPDs preparation milestones were achieved on target.

4 ASSESSMENT OF POLICIES

Introduction

- 4.1 This section of the Authorities Monitoring Report (AMR) assesses the implementation and effectiveness of current planning policies contained in the Hartlepool Local Plan which was adopted this year on 22nd May 2018. The Local Plan covers the period 2016 to 2031 therefore assessment of policies will use baseline information as at April 1st 2016. A comparison will be made between the measured actual effects of policies, baseline information and predicted effects as outlined in the Sustainability Appraisal of the Local Plan policies. This comparison will form the basis of how the policies are performing. Targets and indicators to measure policy performance have been chosen in-line with the adopted monitoring framework as outlined in Appendix 12 of the Local Plan.
- 4.2 The 2012 Regulations⁶ outline the minimum information to be contained in the AMR and these will all be reported accordingly. Specifically, Local Planning Authorities (LPAs) are required to provide information on annual numbers of net additional dwellings, net affordable dwellings as specified in any Local Plan policy within the monitoring period and since the date the policy was first published, adopted or approved. In this instance the reporting base will be from 1st April 2016. It is impractical to assess every single policy of the Local Plan hence policies will be grouped according to the main objectives of the Local Plan.
- 4.3 This section therefore considers the vision, objectives of the 2018 Local Plan, the policies (see Appendix 1) relating to these objectives and some related output indicators for assessing the effectiveness of the policies. A selected number of targets have been included in this report.

Hartlepool Local Plan Objectives, Policies and Indicators

The Hartlepool Local Plan Vision is that:

“Hartlepool by 2031 will be a more sustainable community having achieved the substantial implementation of its key regeneration areas as set out within the Hartlepool Vision; raised the quality and standard of living; increased job opportunities through developing a strong, diverse and thriving local economy which contributes positively to the sub-regional economy; maximised quality housing choices and health opportunities to meet, in full, the current and future needs of all residents. The built, historic and natural environment will have been protected, managed and enhanced, and will contribute to making Hartlepool a safe and attractive place to live, and an efficient and sustainable transport network will integrate its communities within the Tees Valley City Region and beyond. The town will have become a focal destination for visitors and investment.”

⁶ Part 8, 34 (3) of the Town and Country Planning (Local Planning) (England) Regulations 2012

In the context of this vision, the strategy for the Local Plan covers four broad themes each with associated spatial objectives, main policies flowing from the objectives, core output indicators to measure policy performance and targets where set (Table 12).

Table 12: Local Plan themes, objectives, policies, targets and core output indicators (2016-2031)

'Hartlepool's Ambition' Themes	Spatial Objectives for the Local Plan	Local Plan Policies	Core Output Indicators & Targets (if set)
Jobs and the Economy, Lifelong Learning and Skills.	<ol style="list-style-type: none"> 1. To diversify the economic base of Hartlepool and promote an entrepreneurial culture to create more employment opportunities for local people. 2. To develop Hartlepool as a destination of choice for inward investment. 3. To enhance the tourism offer. 4. To support the development of educational and training facilities that will develop a skilled workforce. 5. To facilitate development in the key investment areas in the Borough. 6. To continue to protect and enhance the vitality and viability of the Town Centre. Source: Hartlepool Local Plan 2018 – 1st three columns

- 4.4 The core output indicators and set targets have been selected to ensure they follow the SMART principle i.e. they are Specific, Measurable, Achievable, Realistic and have a Time element. Data relating to the indicators is collected and collated annually. It will be analysed and compared to the baseline information and predicted effects from the Sustainability Appraisal. A commentary will be given to indicate how the policies are performing and whether or not they are being implemented.
- 4.5 Policies can divert from their intended objectives in the course of monitoring over a period of time. It is important to note that policy diversion does not necessarily mean policy failure but instead point out to unintended policy consequences which can either be positive or negative. Unintended consequences act as trigger points to consider policy review. The review will depend on the nature and extent of the policy diversion and whether there is any justification for the diversion or not. All policies that divert from their intended path will be flagged up for possible review and intervention measures to be taken.
- 4.6 The next section assesses the policies under the following sub-sections:
- A) Local Economy (Output Indicators LE1-LE7)
 - B) Housing (Output Indicators H1-H5)
 - C) Environmental Quality (Output Indicators E1-E7)
 - D) Historic Environment and Rural Area (Output Indicators HR1-HR5)
 - E) Transport and Infrastructure (Output Indicators T1-T3)

A LOCAL ECONOMY

This section assesses policies that impart on the local economy covering all land allocated or designated for employment; i.e. industrial, commercial, retail, education, leisure and tourism.

Employment Objectives and Policies

Local Plan Spatial Objectives 1, 2 and 5: To diversify the economic base of Hartlepool and promote an entrepreneurial culture to create more employment opportunities for local people; to develop Hartlepool as a destination of choice for inward investment and to facilitate development in the key investment areas in the Borough.

Related Policies

- Identification and criteria for business development at a prestige industrial site Wynyard Business Park (**EMP1**), and a high quality industrial site Queens Meadow (**EMP2**)
- Identification and allocation of sites for a wide range of general employment uses including light and general industry at Oakesway, Longhill/sandgate, Usworth Rd/Park View West, Sovereign Park, Brenda Road, Tofts Farm East/Hunter House, Tofts Farm West, Graythorp Industrial Estate, Zinc Works Road (**EMP3**).
- Identification and criteria for specialist industrial development at Hartlepool Port, West of Seaton Channel, Philips Tank farm, South Works, North Graythorp, Graythorp Waste Management and Able Seaton Port (**EMP4**)
- Identification and safeguarding of land for a nuclear power station at Zinc Works Road/North Gare/Seaton Snook/Able Seaton Port areas (**EMP5**)

Local Plan Spatial Objectives 3, 4 and 6: To continue to protect and enhance the vitality and viability of the Town Centre, enhancing the tourism offer and supporting the development of educational and training facilities that will develop a skilled workforce

Related Policies

- Identifying and defining a hierarchy of retail and commercial centres that will offer a variety of sites that are economically attractive, diverse and in appropriate sustainable locations and/or locations where connectivity can easily be enhanced throughout the Borough (**RC1**)
- Protecting, supporting and enhancing the retail character of the Town Centre ensuring that development is in accordance with policy RC1 and that the Town Centre is the sequentially preferable location for main town centre uses (**RC2**)
- Supporting, protecting and encouraging diversification of commercial and retail development in the Edge of Town Centers (**RC4-RC11**), Retail Parks (**RC12-RC15**) and Local Centers (**RC16**)

- Developing, supporting, enhancing and protecting leisure and tourism facilities including high quality accommodation and cultural assets to build on successful regeneration schemes in designated tourist areas across the Borough including sustainable rural tourism (**LT1-LT6, RUR5**)

Industrial Policies assessment

- 4.8 Most industries in Hartlepool are located in the southern part of Hartlepool and this area is known as the Southern Business Zone (SBZ). The SBZ is a key employment area and a major driver of economic prosperity for the Tees Valley sub-region. A list of all allocated industrial sites are shown in Table 13. The amount of developed land and available land on each site is also shown and this will be reviewed each year to give an indication of land take up for employment purposes.
- 4.9 In April 2012, the Enterprise Zone (EZ) status was enacted in 3 industrial locations in Hartlepool, i.e. Oakesway, Queens Meadow and the Port. The aim of the EZ status is to aid economic recovery and stimulate growth by giving business rate discounts or enhanced capital allowances over a five year period to support the growth of existing firms and/or attract significant inward investment. Local Development Orders (LDOs) were put in place for each of the 3 areas in 2012 with a lifespan of 3 years. Following an extension to the original 3 years, the Oakesway and Queens Meadow LDOs both expired in March 2018 and have not been renewed. During this year only the LDO at the Port EZ is in place until March 2020.
- 4.10 The Port is currently allocated through the Hartlepool Local Plan (2018). The Port is allocated for the following uses:
Policy EMP4 – port related industrial development, renewable energy manufacturing.
 Through the LDO the following business sectors will be appropriate on the Port:
 - Advanced Engineering
 - Advanced Manufacturing
 - Renewable Energy Manufacturing.
- 4.11 No new companies moved into the Port in 2019/20 and the EZ status expired at the end of March 2020. The Port LDO still remains in place to help attract quality investment into the borough. Although we have stopped monitoring at other EZs which expired last year, it is noted that Queens Meadow lost Omega Plastics from the Rivergreen 905.8m² (9,750sqft unit).
- 4.12 The Employment Land Review (ELR) endorsed by the Council's Regeneration Services Committee in January 2015 has been used as an evidence base for the adopted Local Plan and also as a material consideration whilst making planning decisions. On the basis of the ELR findings and recommendations, the adopted Local Plan reveals a realistic baseline supply of 197.2ha of available employment land from 19 sites across the Borough and these have been allocated and safeguarded for employment purposes until 2031. Table 13 shows the sites allocated for employment (industrial). The information on the table will be used as a baseline for comparison as policies get implemented and developments happen over the course of the Local Plan period up to 2031.

Table 13: Allocated industrial land (2016-2031)

Name	Market Segment	Allocated Uses	Policy Number	Site Area (ha)	Developed/ Committed (ha)	Reserved Land (ha)	Available Land (ha)
Brenda Road East	general employment land	B1,potentially B2,B8 in certain circumstances	EMP3e	3.1	3.1	0	0.0
Graythorp Waste Management	specialist industrial site	B2,potentially polluting or harzadous development	EMP4f	4.1	0.0	0	4.1

Total Area (ha)				906.8	493.9	215.7	197.2

Source: Hartlepool Borough Council Local Plan (2018)

4.13 A number of core output indicators have been selected to measure the effectiveness of the policies which seek to diversify and improve the economy and employment opportunities. These include measures relating to business, leisure and tourism development within the Borough.

Core Output Indicator (B1/B2/B8)	LE1: Total gross amount of additional employment floor space by use class
Core Output Indicator	LE2: Total gross amount of employment floor space lost to non-employment developments
Core Output Indicator	LE3: Amount of employment land developed by type (Brownfield or Greenfield)
Core Output Indicator	LE4: Available employment land (ha)

Table 14: Completed Employment Floorspace 2019-2020

	B1	B2	B8	Other	Total
LE1: Gross additional employment floor space (m ²)					
Total additional (Burger King)	0	0	0	323.8	323.8
LE2: Gross employment floor space lost (m ²)					
Total lost	0	0	0	0	0
Net total completed floorspace (LE1-LE2)	0	0	0	323.8	323.8
LE3: Total amount of employment land developed by type					
Greenfield (m ²)	0	0	0	0	0
Brownfield (m ²)	0	0	0	323.8	323.8
LE4: Available employment land (ha) = *197.2					

Source: Hartlepool Borough Council

*Available land as at adoption of Local Plan in May 2018 all completed floor space is on committed previously developed land.

- 4.14 There has been no employment land uptake from allocated industrial areas this year, same as last year. Therefore the available employment land still stands at 197.2 ha (Tables 13 and 14). Burger King, a fast food restaurant opened doors at Tees Bay Retail Park and this constituted the only additional employment floor space during the year. However, retail parks are not classed as industrial employment land hence there is no effect on employment land uptake. All other industrial activities and businesses are on-going with only one business (Omega Plastics) closing down at Queens Meadow leaving vacant floor space area of 905.8m².
- 4.15 There has been no loss of allocated employment to other uses, no detected policy diversion or policy failure. The industrial policies are therefore being implemented. There is no evidence to warrant policy review although it is of concern that there are no new businesses moving into the Borough to take up the available employment land on employment allocations.
- 4.16 It is anticipated that the Nuclear Power station will be replaced like for like so therefore when it is decommissioned and a new one built there will be no overall loss or gain in employment floor space. At the time it is replaced there is likely to be a short/medium term increase in employment in terms construction jobs associated with the overlap between decommissioning of the existing plant and creation of a new Power Station. It is also highly likely that there will be new supplier chain businesses created within this period of decommissioning and building of a new power station.

Town Centre and Town Centre Uses

4.17 The Town Centre will continue to be the primary retail and commercial centre in the borough. In accordance with policy **RC1**, the Borough Council will seek to diversify, support and protect the Town Centre as the sequentially preferable location for main town centre uses which include:

- Shops (A1)
- Financial and Professional Services (A2)
- Food and Drink (A3)
- Drinking Establishments (A4)
- Hot Food Takeaways (A5)
- Business (B1)
- Hotels (C1)
- Non-residential institutions (D1)
- Assembly and Leisure (D2)
- Theatres and Nightclubs (Sui Generis)
- Residential (C2, C2a, C3 and C4)

At the time of writing this report the Use Classes were changed in September 2020. The new Use Classes will therefore be reported next year.

4.18 Information on vacancy rates provides a useful indication of the viability of the town centre. The Retail Study (2015) reports that vacancy rates in terms of both quantum of floorspace and number of retail units in Hartlepool are significantly above the UK national averages and this potentially reflects a significant contraction in retail provision in Hartlepool. The core output indicators have therefore been selected to monitor vacancy rates and town centre uses.

Core Output Indicator **LE5**: Vacancy rates in the Town Centre (number and gross floor space area of empty units)

Table 15: Vacancy Rates in the Town Centre 2019/20

	2015/16	2016/17	2017/18	2018/19	2019/20
Total number of retail units	484	484	486	476	478
Total number of vacant units	89	101	103	103	102
Vacancy Rate (%)	18.4	20.9	21.2	21.6	21.3
Total Floor Space (m ²)	182 193	180 598	181 127	139 241	138 963
Vacant Floor Space (m ²)	22 753	20 807	21 796	20 809	20 910
Vacancy Rate (%)	12.5	11.5	12.0	14.9	15

Source: Hartlepool Borough Council, Annual Retail Survey, 2020.

4.19 The vacancy rate in terms of floorspace has slightly increased this year to 15% from 14.9% the previous year (Table 15). This is the highest it has been in the past five years. Lack of high quality shops and vacancy rates in the town centre still remains a challenge. There is a considerable number of smaller businesses opening and

shutting down in a short space of time. Some shops are seasonal opening only during a certain time of the year to clear goods and shutting down for the rest of the year.

- 4.20 Retail policies are performing as expected because the town centre still continues to develop as a retail hub with A1 uses accounting for approximately half of all uses in the town centre, followed by A2 uses. All uses in the town centre are as allocated in the Local Plan, there is no evident diversion of policy performance, and therefore town centre policies are being implemented.
- 4.21 There have been no town centre uses completions recorded outside of the town centre, edge of town centre, local centre boundaries. This indicates that town centre policies are well implemented with appropriate planning permissions being granted for town centre uses within the town centre. There is therefore no need to review any of the town centre retail policies.

Tourism and Leisure Policies Assessment

- 4.22 Tourism has become very important to the Hartlepool economy, the developments at the Marina and Seaton Carew seafront acting as main catalysts to its success. The Local Plan identifies the Town Centre, the Marina, the Headland and Seaton Carew as main tourism destinations and outlines related policies.
- 4.23 Rural tourism in terms of holiday accommodation, camping sites, caravan sites also contributes towards a good tourism offer in the Borough. The Borough has in the past years seen a growth in the number of planning applications being determined for holiday cottages mainly in the countryside.

LE6: Number, Type &, Location of permitted applications for tourism/leisure/educational/training facilities

LE7: Completed gross floorspace or area for tourism/leisure/educational/training facilities

- 4.24 Table 16 shows that there has been a few tourist-related planning permissions granted during this financial year, mainly restaurants. A major one is for a 36 bed hotel at the Wesley Chapel, which is a derelict building that has been vandalised and vacant for a very long time. One leisure-related application was granted in the countryside at Summerhill for recreation inline with rural policies that promote tourism in the rural area. Permissions have been granted for education and training facilities outside the town centre. It is anticipated that these facilities, when completed will create jobs and skills.

Table 16: Planning permissions granted for tourism, leisure, education and training developments 2019/2020.

General Location	Site / Location	Development	Development progress
Town Centre	Wesley Chapel	Change of use to upper floors of main building and annex building into 36-bed hotel; change of use of upper ground floor of main building to mixed A3/A4 Use (restaurant and bar); change of use of lower ground floor of main building to form 5no. commercial units (to be in flexible A1 Use (retail), A2 Use (financial and professional services), A3 Use (restaurants and cafes) or A4 Use (drinking establishment)	Not started
	Church Street	Change of use from tattoo parlour to cake and coffee boutique (use class A3)	started
	92 York Road	Change of use from offices (A2 Use Class) to cafe (A3 Use Class) including alterations to shopfront (part retrospective	Not started
Edge of town centre	None	None	n/a
Other Urban areas	High Tunstall College of Science	Erection of extension to school building to create sports changing pavilion	started
	High Tunstall College of Science	Provision of an all-weather playing pitch, installation of 8x15m high floodlights, fencing, gates and associated works	started
	Jesmond Gardens Primary School	Erection of wooden classrooms	started
	Unit 6 Enterprise House Thomlison Road	Change of use to cafe (A3 use)	Not known
	81 Dimensional House Stranton	Change of use of part of building from Offices (B1) to Cafe (A3), the installation of a flue and extraction fans in western elevation	Not known
	Stranton Primary School	Erection of a single storey extension to provide additional teaching space and alterations to existing entrance foyer	started
Marina area	Unit 12A - 14 Navigation Point	Provision of outside seating outside Unit 14	started
	Unit 5-6 Café Rapport	Change of use to external seating area and provision of retractable folding screen (part retrospective)	completed
Headland	None	None	n/a
Seaton Carew	None	None	n/a
Countryside/Rural Area	Summerhill Visitor Centre	Proposed extension to existing BMX track including improvement works to spectator areas and proposed landscaping works	started

Source: Hartlepool Borough Council, Development Control, approved planning permissions 2019/20

B. HOUSING

This section assesses the implementation of housing policies.

Local Plan Spatial Objectives 2, 3 &4: To support growth in the housing sector and improve the choice, quality and affordability of all types and tenures of housing and to encourage healthier and more sustainable lifestyles.

Related Policies

- Ensuring that new housing provision in the Borough is delivered through housing sites that have already been permitted and newly identified sites as allocated in the Local Plan **(HSG1, HSG3-HSG8)**
- Ensuring that all new housing, and/or the redevelopment of existing housing areas, contributes to achieving an overall balanced housing stock that meets local needs and aspirations, both now and in the future **(HGS2)**
- Seeking to deliver affordable housing in respect of all applications or proposals for C3 residential developments that consist of a gross addition of 15 dwellings or more. The affordable housing target of 18% will be sought on all sites above the 15 dwelling threshold **(HSG9)**
- Tackling the problem of the imbalance of supply and demand in the existing housing stock through co-ordinated programmes including Housing Market Renewal. Priority will be given to the housing regeneration areas in central Hartlepool identified in the Hartlepool Housing Strategy **(HSG10)**
- Setting out the criteria for residential annexes and residential extensions **(HGS11-12)**
- Seeking contributions/planning obligations from developers where viable and deemed to be required to address affordable housing provision and fund the HMR programme as set out in the Planning Obligations Supplementary Planning Document **(QP1)**

Housing policies assessment

- 4.25 The Strategic Housing Market Assessment (SHMA, 2015) identifies an objectively assessed need (OAN) of 287 dwellings per annum which takes into account the predicted household projections over the plan period of 15 years (2016 to 2031); a backlog from previous years; and aspirations of the Tees Valley Combined Authority to create more jobs and overcome economic development barriers of which housing is one as outlined in their Strategic Economic Plan (2016-2026). The adopted local plan therefore sets an aspirational housing target of **410 net dwellings per annum** which also factors in a replacement of demolitions on Housing Market Renewal (HMR) sites and an additional 20% affordable housing buffer. The HMR initiative identifies a total of 1950 dwellings to be demolished over the plan period at a replacement rate of 50%. Therefore a total of 975 dwellings (i.e. 65 per annum) will be required from HMR sites over the plan period.
- 4.26 Since demolitions from HMR sites have already been accounted for in the 410 dwellings/annum delivery rate, actual demolitions from HMR sites during the plan period will be excluded in calculating the net housing delivery. Demolitions and

delivery from HMR sites will therefore be monitored separately from the rest of other housing sites to avoid double counting in working out total annual demolitions.

Core Output Indicator **H1**: Housing delivery (and demolitions) at HMR sites

- **H1a**: number of new dwellings on HMR sites
- **H1b**: Number of Demolitions on HMR sites
- **H1c**: Net dwellings delivered on HMR sites (H1a-H1b=H1c)

Core Output Indicator **H2**: Annual Net Housing Delivery (excludes demolitions and replacements on HMR sites)

- **H2a**: net delivery in previous years
- **H2b**: net additional for the reporting year
- **H2c**: Housing delivery target
- **H2d** actual net delivery
- **H2e** Cumulative Delivery (over Local Plan period)

Table 17: Housing targets

	Total net housing required 2016-2031	Source of plan target
Baseline Housing Target	410 per annum	Hartlepool Borough Council Local Plan
Phased Delivery Target for the reporting year	350 per annum	Table 7 of the Hartlepool Local Plan and Hartlepool Borough Council Local Plan Housing Delivery Report (2020)

H2b	Net additional dwellings for the reporting year			254
H2c	Housing delivery target	350	350	350
H2d	Actual net Delivery (per reporting year)	-85	+21	-95
H2e	Cumulative Delivery (over Local Plan period)	-85	-64	-160

Source: Hartlepool Borough Council 2020; NB: In relation to actual and cumulative delivery + denotes above target delivery and – (minus) under delivery

Table 19 shows information on Indicator H2 and will be used to demonstrate the annual net delivery of housing as set out in policy HSG1: New Housing Provision.

- 4.27 The Baseline Housing Target (includes 20% affordable housing delivery buffer) and is phased over the plan period. This report covers the 1st phase of the Local Plan with a set delivery target of 350 dwellings/annum. In 2017/18 there was a delivery of 265 dwellings, 85 fewer than the baseline housing target of 350 (In the Local Plan Housing Trajectory). In 2018/19 there was a delivery of 371 dwellings, 21 more than the baseline housing target of 350. In 2019/20 there was a net delivery of 254 new build dwellings, 96 fewer than the baseline housing target of 350. The net shortfall over the last three years is therefore 160 dwellings.
- 4.28 There were no demolitions of permanent dwellings this year, and no losses through conversions, hence the net additional dwellings remains 254 for the year. There are no HMR sites this year (Table 18). 61.6% of all completions were from greenfield sites such as Tunstall Farm, Wynyard, Conniscliffe Rise and 38.4% from brownfield sites such as Britmag and Raby Gardens.
- 4.29 The annual net delivery of housing this year is less than the local plan target of 350 dwellings/annum (Table 17), lower than last year's net delivery of 371 dwellings and also slightly below the OAN of 287 dwellings/annum. In addition to ongoing building progress on various housing sites, this year there is a total of 147 new-build starts mainly from greenfield sites. It is also anticipated that some of the strategic housing sites allocated in the newly adopted Local Plan (2018) which include more greenfield housing sites may obtain planning permission. It is therefore expected that housing delivery will increase next year, in 2020/21 and meet the delivery target. The overall averaged annual target of 410 dwellings is therefore still considered to be an achievable figure and there is currently no need to revise it or any of the housing policies. For further information on housing delivery and the 5 year supply position please refer to the 2019/20 Housing Review and Five Year Supply document⁷

Core Output Indicator **H3**: Number and types of affordable dwellings delivered

Core Output Indicator **H4**: Housing types completed

- 4.30 Affordable housing is defined as follows:
- *Social rented homes* are owned by either local authorities or registered providers (RP). These organisations charge a rent which is set by government guidelines through the national rent regime.
 - *Affordable rent* is subject to rent controls that require a rent of no more than 80% of the local market rent (including service charges, where applicable). As local market rents vary from place to place, these are measured by the amount of local housing allowance administered in a particular area.

⁷ https://www.hartlepool.gov.uk/downloads/file/6587/2020_housing_review_and_5yhls_report

- The term '*intermediate housing*' includes Discounted Market Sales and a range of routes to home ownership for those who could not achieve home ownership through the market as set out in Annex 2 of the National Planning Policy Framework's (NPPF).

4.31 The SHMA identifies a need for delivery of 144 affordable dwellings per annum. However, due to viability issues the local plan only requires 18% of the 410 net delivery targets and this equates to 74 affordable units per year rather than the identified 144.

Table 20: Number and types of affordable dwellings delivered (H3)

Year	Type			
	Social rent	Intermediate tenure	Affordable rent	Total
2019/2020	22	0	52	74
2018/2019	0	0	62	62
2017/18	20	0	16	36
2016/17	4	0	6	10

Source: Hartlepool Borough Council

- 4.32 This year a total of 74 affordable homes (i.e. 56 houses, 18 bungalows) were delivered from the following sites: Former Health Centre at Caroline Street, Raby Gardens Phase 2, Marine Point, The Mayfair Centre, Tunstall Farm and refurbished homes from various locations. This year the set target of 74 homes was just been met for the first time since 2016/17 (Table 21). Of the 74 homes delivered; 60 are new builds (81.1%), 13 refurbished (17.6%) and 1 old build which was purchased outright.
- 4.33 The Borough Council will continue to support the delivery of additional affordable housing through building on council-owned land, partnership working with Registered Providers in the borough and through securing affordable housing contributions as part of private residential developments. A total of £366,549.12 S106 funds were received for offsite affordable housing this year (Appendix 5) and £305,656.00 was sought and secured (Appendix 6) for offsite affordable housing. Planning permissions were granted for 36 affordable homes in Greatham Station Road and 81 affordable bungalows at Former Brierton School site and building has commenced on both sites. It is therefore anticipated there will be above target delivery of affordable homes and more bungalows in the Borough.

Table 21: Housing Types completed (Indicator H4)

Type	Gross Number completed		% of total gross completed	
	2018/2019	2019/2020	2018/2019	2019/2020
Flat/apartment	8	8	2.1	3.1
Terraced house	103	41	27.4	16.1
Semi-detached house	71	39	18.9	15.3
Detached house	162	150	43.1	58.8
Bungalow	32	17	8.5	6.7

Source: Hartlepool Borough Council, 2020

- 4.34 Table 21 shows that detached houses still account for most dwelling types completed. The delivery of detached and semi-detached houses in Hartlepool continues to increase yearly since 2016/17 whilst terraced housing and flats delivery continues to decrease. There continues to be a shortage of bungalows in the Borough and the number delivered this year (i.e. 17 bungalows) is less than last year (32 bungalows). It is anticipated that delivery of bungalows in 2020/21 will increase due to commencement of building at College farm/Dalton Heights which has permission for 31 bungalows and also at former Brierton School site with permission for 81 bungalows.

C. ENVIRONMENTAL QUALITY

This section analyses policies related to the borough's environment (i.e. natural, built, rural and historic environment). Policies that seek to improve the environment and quality of life by adapting, minimising and mitigating against the effects of climate change will also be analysed in this section.

Local Plan Spatial Objectives 11, 12, 13, 14, 15: To protect, promote and enhance the quality and distinctiveness of the Borough's natural, rural, built and historic environment and to mitigate against the impacts of climate change

Related Policies

- Protecting, managing and enhancing the borough's natural environment and green networks ensuring that sites designated for nature conservation are protected and unharmed by permitted developments (**NE1-7**)
- Protecting, managing and enhancing the rural area (**RUR1-6**)
- Protecting, managing and enhancing the borough's historic environment (**HE1-7**)
- Working with partner organisations, developers and the community to help minimise and adapt to climate change, in particular to minimise flooding risk and encourage reduction, reuse and recycling of waste (**CC1, CC2, QP7, EMP4f**)
- Encouraging renewable and low carbon energy generation, strategic wind turbine developments and large scale solar photovoltaic developments (**CC3, CC4, CC5**)

Natural environment policies assessment

Core Output Indicator **E1**: Changes to sites designated for conservation as a result of planning permissions (i.e. international sites, national sites and local wildlife sites)

Core Output Indicator **E2**: Quantity & type of green infrastructure gained/enhanced/lost through planning permissions (ha)

Core Output Indicator **E3**: Amount of wildlife habitat lost/gained as a result of planning permissions (ha)

Core Output Indicator **E4**: Amount of ancient woodland habitat lost as a result of planning permissions (ha)

Core Output Indicator **E5**: Amount of priority species lost/gained as a result of planning permissions (ha/number)

4.35 Table 22 below shows that this year there have been no losses or gains in biodiversity habitat in international, national or local sites ecological/wildlife sites. However, High Newton Hanzard Verges, a designated local wildlife site was reassessed in May 2019 and it was found that development in and around the site has resulted in sufficient degradation of the interest features to warrant de-designation. Accordingly, in June 2019 the site was recommended for deletion to the Tees Valley Nature Partnership Natural Assets Working Group (TVNP). When the deletion is actioned by TVNP this will constitute loss of habitat and will be recorded then.

Table 22: Losses or additions to biodiversity habitat as a result of planning permissions 2019/20

		Loss	Addition/Gain	Net Total
Indicator E1,E3	International Sites	0	0	0
	National Sites	0	0	0
	Local wildlife sites	0	0	0
Indicator E2	Quantity of Green Infrastructure (ha)	0*	0*	0*
	Type of Green Infrastructure	unknown	unknown	unknown
Indicator E4	Amount of ancient woodland (ha)	0	0	0
Indicator E5	Type of priority species	none	none	none
	Amount/number of priority species	0	0	0

Source: Hartlepool Borough Council. N/B *although green infrastructure gain cannot be quantified there has been developer contributions secured through some housing planning permissions.

- 4.36 The quantity and type of green infrastructure lost or gained is not routinely measured or monitored, therefore no definitive measurement can be provided. When determining planning applications the aim is always to secure improvements and offset any losses. However, funding for green infrastructure is secured through S106 developer contributions from planning applications and this can be routinely measured. Including cycleways, a total of £54,940.00 has been sought and secured through S106 agreements and a total of £44,842.09 has been received this year for green infrastructure (Appendix 5 and 6).
- 4.37 Ancient woodland is considered to be an ‘irreplaceable habitat’ due to the length of time required for the habitat to develop its intrinsic value. As such creation of this habitat is not generally considered to be feasible.
- 4.38 Priority species are those listed as “of principal importance for the purpose of conserving biodiversity” under the provisions of section 41 of the Natural Environment and Rural Communities Act 2006. There are a total of 943 priority species, including algae, fungi, non-vascular and vascular plants, invertebrates, fish, amphibians, reptiles, birds and mammals. It is therefore not possible to understand losses and gains across all priority species as a result of development. Instead assessment focuses on identifying and preventing potential for significant harm, which could include losses to priority species populations. When determining planning applications the aim is always to prevent losses and secure gains.
- 4.39 Obtaining definitive counts of numbers of animals using an area of land, or likely to be affected by a proposed development, is often impractical due to the cost and time involved in undertaking the required survey. Instead survey effort is focused on identifying the most important areas for biodiversity, often concentrating on legally protected species. Absolute counts are rarely obtained unless protected species licencing is required.

Core Output Indicator **E6**: Amount of municipal waste arising and % recycled

Core Output Indicator **E7**: Number and capacity of permitted and installed renewable energy developments

Table 23: The amount of household municipal waste arising

Indicator E6		Landfill	Incineration with E.F.W.	Incineration without E.F.W.	Recycled/composted	Other	Total Waste Arising	% Recycled/composted
Tonnes	2019/20	714.01	25377.37	nil	13217.08	nil	39308.46	33.62
	2018/19	172.61	26952.91	nil	12921.85	nil	39765.64	32.5
	2017/18	935.98	25900.47	nil	12874.94	nil	39711.4	33.1
	2016/18	619.3	31591.08	nil	14313.85	nil	46524.06	30.77

Source: Hartlepool Borough Council, 2020.

4.40 The total amount of waste arising this year decreased in comparison to last year. The proportion of recycled or composted waste has slightly increased this year from last year's 33.5% to 33.62% this year (Table 23). The Council introduced commingled recycling collections in 2012, which, whilst making recycling easier for residents, had an impact on the quality of material collected. This is being continually addressed by initial sorting (removal of large items of contamination) at the Council's own waste transfer station before the materials are transferred to the sorting facility.

4.41 Work is underway to increase recycling participation rates and to reduce levels of contamination, including targeted education, promotions in Hartbeat magazine and the local media, a dedicated Hartlepool Borough Council recycling page and an improved waste management section on the council's website. It is anticipated that these measures will in future lead to an increase in the amount of recycled or composted waste.

Table 24: The amount of renewable energy generation by installed capacity and type 2019/20

Core Output Indicator E7	Wind onshore	Solar photovoltaics	Hydro	Biomass						Total
				Landfill gas	Sewage sludge	Municipal (& industrial) solid waste combustion	Co-firing of Biomass with fossil fuel	Animal biomass	Plant biomass	
Applications Permitted & installed capacity in MW	nil	nil	nil	nil	nil	nil	nil	nil	nil	nil
Completed installed capacity in MW	nil	nil	nil	nil	nil	nil	nil	nil	nil	nil

Source: Hartlepool Borough Council approved planning permissions

4.42 There were no approved planning applications for renewable energy generation.

Rural area development policies assessment

E8: Number of approved planning applications in rural areas

E9: Types of approved developments in rural areas

Table 25: Developments approved outside Limits to Development 2016-2020

Developments Approved	2016/17	2017/18	2018/19	2019/20
Agricultural buildings	2	2	0	0
New dwellings – no agricultural justification	1	2	0	0
New dwellings associated with agricultural existing developments	1	0	0	0
New dwellings associated with rural business developments	0	1	0	0
Extensions to existing dwellings	0	0	1	0
Temporary residence in connection with rural business	1	0	0	1 (erection of temporary building to provide site welfare at Three Gates Farm in Dalton Piercy)
Replacement dwellings	0	0	0	0
Residential conversions of rural buildings	1	0	0	0
Business conversions of rural buildings (buildings for business)	2	1	1	0
Extensions of gardens	0	0	0	0
Recreational and leisure uses	0	0	0	1 (installation of horse riding arena; Three Gates Farm, Dalton Piercy)
Extensions and other works relating to existing businesses	0	0	1	1 (erection of a portable horse shelter; Three Gates Farm, Dalton Piercy)
New buildings associated with business	0	0	1	0
Telecommunications development	1	0	0	0

Source: Hartlepool Borough Council, 2020

4.43 The information provided above relates to planning applications approved for development on land outside the limits to development (urban fence and village

envelopes). There has only been one approved development this year at Three Gates Farm (Table 25). This is justified as it relates to an existing rural business and rural policies promote growth and diversification of the rural economy hence this is positive development in the rural area.

- 4.44 The adopted New Dwellings Outside Developments Limits SPD (2015) continues to assist preserve the open countryside from unwanted, unsustainable and unjustified developments of isolated dwellings. If these go unchecked, they could ideally set precedence to isolated residential developments sprouting in unsustainable locations in the rural area and potentially reduce the compactness of the urban area. The rural development policies continue to be implemented and there is therefore no need or justification for their review.

Historic environment policies assessment

E10: Number of locally listed buildings and structures
E11: Number of locally listed buildings /structures at risk
E12: Number of conservation area appraisals taken

- 4.45 The National Heritage ‘At Risk Register’ includes a Grade I church in Hartlepool i.e. St Hilda church on the Headland. In addition, two Scheduled Ancient Monuments are considered to be at risk i.e. a Medieval farmstead and irregular open field system at High Burntoft Farm, Elwick; and Low Throston deserted medieval village. Two conservation areas in Hartlepool also appear on the ‘At Risk Register’, these are Headland and Seaton Carew.

Table 26: Numbers of listed buildings at	Buildings at risk
Grade I	Church of St Hilda, High Street, Headland
Grade II	Shades, 16 Church Street
	Beacon Tower, East End of North Pier
	Former United Reformed Church, Durham Street
	Friarage Manor House, Friar Street
	Market Hotel, Lynn Street
	Throston Engine House, Old Cemetery Rd
	Former Odeon Cinema, Raby Road
	Former Wesley Methodist Church, Victoria Road
	Steel Workers Ward Memorial, Westbourne Rd Social Club
	Church of St Mary, Durham Street
Locally listed buildings	22 & 23 Church Street
	Former Yorkshire Bank, 65 Church Street

Source: Hartlepool Borough Council, 2020.

- 4.46 A Derelict Buildings and Sites Working Group has been established for many years. The Working Group seeks to bring back into use and/or improve a priority list of buildings which does include some of the buildings from the list in Table 27. The

council has been working with owners to assist in bringing buildings back into use and/or improving them for safety reasons or so that they do not appear an eyesore on Hartlepool's street scene. Throston engine house has got planning permission for change of use and alterations to provide a dwelling house but building has not yet commenced.

- 4.47 The Former Wesley Methodist Church in Victoria Road got listed building consent and planning permission this year for change of use to upper floors of main building and annex building into 36-bed hotel; change of use of upper ground floor of main building to mixed A3/A4 Use (restaurant and bar); change of use of lower ground floor of main building to form 5no. commercial units (to be in flexible A1 Use (retail), A2 Use (financial and professional services), A3 Use (restaurants and cafes) or A4 Use (drinking establishment).
- 4.48 The Odeon is still on the market and the council is still seeking a development partner to help deliver a scheme for the building. Although every attempt has been made to negotiate with the land owner it is envisaged that the council will acquire the Odeon through a Compulsory Purchase Order at a later date. Maintenance improvements work on the former Wesley Methodist Church is ongoing.
- 4.49 The council hopes that by publishing an annual 'Heritage at Risk' register, vulnerable heritage assets across the borough will be highlighted and this will most likely raise their profile and potentially introduce them to a new audience who may be able to resolve the problems individual heritage assets are suffering from. As part of the document case studies will be provided where buildings are removed from the list to provide examples of heritage assets where successful solutions have been found in order to provide inspiration to other owners in a similar situation.
- 4.50 There was no conservation area appraisal this year.

D. SUSTAINABLE TRANSPORT AND ACCESS TO THE COUNTRYSIDE

This section analyses policies related to the provision and improvement of the transport network in the Borough covering. Such a network can offer access to employment opportunities as well as leisure and community facilities, and can have the added benefit of reducing congestion and carbon emissions through reducing car usage. The transport and connectivity policies in the Hartlepool Local Plan have been prepared within the context of the transport challenges and ambitions of the wider Tees Valley sub-region.

Local Plan Spatial Objectives 16, 17: To ensure the provision of a safe, efficient and sustainable transport network, accessible to all and to strengthen transport links with the Tees Valley sub-region, region and beyond

Related Policies

- Working with key partners, stakeholders and other local authorities to deliver an effective, efficient and sustainable transport network, within the overall context of aiming to reduce the need to travel **(INF1)**
- Delivering sustainable transport in Hartlepool by maximising the level of sustainable access to areas of development, particularly through good quality public transport services, safe and attractive well-lit pedestrian and cycle routes and by developing further opportunities for sustainable modes of transport to serve existing communities throughout the Borough **(INF2)**
- Protecting and enhancing the countryside and coastal areas and to make them more accessible for the benefit of the residents and visitors to the borough **(INF2)**

Core Output Indicator **T1**: Number & lengths of roads created, improved to reduce congestion

Core Output Indicator **T2**: Number & lengths of cycleways created, improved or lost

Core Output Indicator **T3**: Number, Types & lengths of public walkways and coastal routes created, diverted improved or lost

Transport policies assessment: cycleways and roads

- 4.51 The Local Plan makes provision for the continued improvement of roads and development of a comprehensive network of cycle routes linking the main areas of the borough. The programme of cycleway improvements supported under the Tees Valley Combined Authority (TVCA) Local Growth Fund (LGF) 'Sustainable Access to Employment' programme continues to plan the construction of cycleways across the borough in accordance to the Hartlepool Cycling Development Plan which is a constantly evolving document (www.hartlepool.gov.uk/cycleplan).
- 4.52 The LGF programme has been delayed slightly due to issues connected with Covid but will complete in 2020/21. The Council is currently working with TVCA on the

Tees Valley Local Cycling and Walking Infrastructure Plan (LCWIP). This is a Tees Valley wide plan which includes Hartlepool. Key projects will be the development of cycling corridors. For Hartlepool the corridor being explored is the A689 from the Borough border to the Town Centre. This year the council secured further s106 agreements which will deliver money towards improvements and received a total of approximately £29,460 in developer contributions towards delivering sustainable modes of travelling and this includes cycle routes on these sites and ensuring they are connected to the existing cycle network.

4.53 Table 27 shows that this year a total length of 3.97km of cycleway was improved i.e. at Bishop Cuthbert and A689 to Brenda Road. No new cycleways were created and none were diverted or extinguished.

Table 27: Roads and cycleways 2019/20

		Created/New	Diverted	Extinguished	Improved
2019/2020	Cycleways	Name			1) A689 to Brenda Road cycleway/walkway upgrade 2) Bishop Cuthbert Access Improvements

Transport policies assessment: walkways and coastal paths

4.54 The council will continue to improve access to the countryside and furniture within the countryside so that a more inclusive network will be available to a broader user base. This entails creation of new footpaths and improvement works to the network of existing footpaths. The enacted Marine and Coastal Access Path Act 2009 placed

a duty for a coastal path to be created along the whole of the English coastline. The first section of the England Coastal Path is in place between the North Gare car park at Seaton Carew and Sunderland. The Council continues to support initiatives to extend the England Coastal Path southwards from its current terminus at North Gare car park. Table 28 shows developments in relation to Indicator T3.

Table 28: Walkways and coastal paths 2019/20

Core Output Indicator T3						
	Type of Walkway	Created (km)	Diverted (km)	Extinguished (km)	Improved (km)	Locations of paths changed throughout the year
2019/20	Public Rights of Way	0	0	0	0	
	Permissive Paths	0	0	0	0.75	Springwell Community Woodland, Clavering
	England Coast Paths	5.17	0	0	0.3	Tees Road/A178 – Graythorp Industrial Estate, Conoco Phillips, Greatham Creek
2018/2019	Public Rights of Way	0	0	0	0.97	Public Footpath No.5, Golden Flatts, Seaton Parish Public Byway No.14, Greatham Parish Public Byway No.4, Newton Bewley Parish Public Byway No.30, Billingham Parish
	Permissive Paths	0	0	0	1.31	Springwell Community Woodland, Clavering North Gare Car Park approach road Tees Road/A178 – Graythorp Industrial Estate, Conoco Phillips, Greatham Creek
	England Coast Paths	0.57	0	0	0	
2017/2018	Public Rights of Way	0	0.35	0	0	
	Permissive Paths	0	0	0	0	
	England Coast Paths	0	0	0	0	
2016/2017	Public Rights of Way	0	0.53	0.37	0.4	
	Permissive Paths	0.22	0	0	0.96	
	England Coast Paths	3.8	0	0	0.42	

Source: Hartlepool Borough Council, 2020

4.55 Table 29 shows that 5.17 km of coastal path was created and improvement works on 0.3 km of coastal path were done at Tees Road/A178, Graythorp Industrial Estate, Conoco Phillips and Greatham Creek. Improvement works were done on permissive paths at Springwell Community Woodland in Clavering. Considerable amount of work has started on improvement and creation of more public footpaths and this is expected to be complete next year.

5. CONCLUSION and RECOMMENDATIONS

This report covers the first phase of the Local plan housing delivery which sets a baseline delivery target of 350 dwellings/annum. A gross total of 254 new build homes were delivered this year i.e. 61.6% from greenfield sites such as Tunstall Farm, Wynyard, Coniscliffe Rise and 38.4% from brownfield sites such as Britmag and Raby Gardens. There were no demolitions of permanent dwellings hence the net delivery is 254 homes/annum. It is below the baseline delivery target and the Objectively Assessed Need (OAN) of 287 dwellings/annum. This delivery has increased the net shortfall over the last three years from 85 in 2017/18 to 160 dwellings this year.

It is anticipated that the shortfall will be addressed in the coming years by the ongoing building progress on various housing sites. More sites were granted planning permission this year including Duchy in Wynyard, Former Brierton School Site, Seaton Meadows and Station Road at Greatham and altogether will add a gross total of 280 dwellings. Building on these sites is expected to commence early next year. It is also anticipated that building at Quarry Farm 2 with planning permission for 220 dwellings will commence next year. Some of the strategic housing sites allocated in the Local Plan (2018) which include more greenfield housing sites may obtain planning permission next year. It is therefore expected that housing delivery will increase next year and the coming years to meet the annual delivery target. The annual target of 350 dwellings is therefore still considered to be an achievable figure and there is currently no need to revise it or any of the housing policies. A total of 74 affordable homes (i.e. 56 houses, 18 bungalows) were delivered on target.

No loss of allocated employment land to other uses has been recorded. There has been no unjustified employment land take-up at non-allocated sites. All industrial activities and businesses are on-going with only one business (Omega Plastics) closing down at Queens Meadow leaving vacant floor space area of 905.8m². The town centre continues to develop as a retail hub with A1 and A2 uses accounting for over 50% of all uses. There have been no town centre uses completions recorded outside of the town centre, edge of town or local centre boundaries. It is therefore concluded that the industrial policies and town centre policies are being implemented. There is no evidence to suggest policy non-implementation, diversion or failure to justify policy review. However it is noted that there are no new businesses moving into the Borough to take up the available employment land on employment allocations. The available employment land remains the same at 197.2 hectares.

There is no need to revise any natural environment or wildlife conservation policies as they are being successfully implemented. There were no permitted unjustified residential developments in the countryside outside limits to development hence the rural development policies continue to be implemented. There were no new roads nor were cycleways created this year. However, improvement works were done on about 4km cycle paths at Bishop Cuthbert and at A689 / Brenda Road. A coastal path of 5.17 km long was created and improvement works.

Overall as illustrated by the assessment of the local plan policies, all policies are performing accordingly and none have been identified or flagged up for revision as none had unjustified outcomes. Through continued monitoring, policies will be reviewed annually throughout the local plan period to ensure they are being implemented and that targets are also being met as planned.

Appendix 2: Neighbourhood Development Orders and Neighbourhood Development Plans

Hartlepool Rural Plan

The Hartlepool Rural Plan now forms part of the Development Plan for Hartlepool and can be accessed at the council website using the following link:

https://www.hartlepool.gov.uk/downloads/download/589/03_hartlepool_rural_neighbourhood_plan

The Headland Neighbourhood Plan

The Headland Neighbourhood Planning Group secured a grant through the Supporting Communities in Neighbourhood Planning Programme to assist them with delivering events and to raise awareness about Neighbourhood Planning but also to commission some consultancy support to develop their Neighbourhood Planning policies. A first draft of the plan has been prepared and the group has reviewed it. This process involved consultation with the local community on current issues and priorities to bring the document up-to-date. The group was successful in obtaining a grant via Locality to undertake the consultation and to commission the Council to produce a proposals map. The draft plan has been reviewed by the Planning Policy Team to ensure conformity with the NPPF and the adopted Local Plan. Progress on the draft plan can be viewed on the council website using the following link:

https://www.hartlepool.gov.uk/downloads/download/106/04_headland_neighbourhood_plan

Wynyard Neighbourhood Plan

The Wynyard Neighbourhood Plan Working Group, a sub-committee of the Wynyard Residents Association accessed funding from the Supporting Communities in Neighbourhood Planning Programme to support the initial stages of plan development. The group commissioned the services of a consultant to assist with the preparation of a first draft of the plan. They also secured the support of consultants Aecom (via Locality) to prepare a masterplan for the Wynyard Neighbourhood Plan area. The policies of the plan have been drafted and the group has undertaken a consultation exercise with residents in the plan area prior to completing the first draft of the plan. To-date, consultation in relation to the early stages of plan development has included a household survey conducted within the Neighbourhood Plan boundary and through a number of local community events and workshops. The Wynyard masterplan was adopted in October 2019. Current progress on the plan can be viewed on the council website using the following link:

https://www.hartlepool.gov.uk/downloads/download/107/05_wynyard_neighbourhood_plan

Appendix 3: Duty to Cooperate

This section reflects the requirements of section 33A of the Planning and Compulsory Purchase Act 2004⁸ (Duty to co-operate in relation to planning of sustainable development) in relation to the time period covered by this report.

The Duty to co-operate requires:

- councils and public bodies to ‘engage constructively, actively and on an ongoing basis’ to develop strategic policy
- councils to have regard to the activities of the other bodies; and
- councils to consider joint approaches to plan making.

The bodies that the council must cooperate with are set out in the Town and Country Planning (Local Planning) (England) Regulations 2012, part 2, duty to cooperate, (4) (1).

Co-operation with Strategic Partners in Hartlepool

The Council works closely with numerous partners across Hartlepool to develop strategic policies that help improve the lives of residents. Statutory boards include the Health and Wellbeing Board where political, clinical, professional and community leaders from across the care and health system come together to improve the health and wellbeing of the local population and reduce health inequalities. The Board has been in place since 2013 and meet on a regular basis to ensure Hartlepool-wide coordination with regards to the health and wellbeing of the Borough.

The second statutory board is the Safer Hartlepool Partnership which is working hard to keep Hartlepool a safe place for people who live, work and socialise in the Borough. The Partnership works alongside a number of key organisations including the police and fire brigade to reduce crime and the fear of crime.

The Council also support and leads on the Hartlepool Business, Economic and Regeneration Forum which encourages local business and stakeholders to come together and share ideas and successes to help increase prosperity across Hartlepool.

The Council also aims to work in partnership with many key stakeholders across the Borough whenever we are developing new policies and strategies with ongoing dialogue and consultation where necessary to ensure all views and concerns are taken into account throughout the development process.

⁸ PACA as updated by section 110 of the 2011 Localism Act

Other Local Authorities and Sub Regional Organisations

Hartlepool has many established avenues for co-operation on cross border and strategic planning issues. There are long established forums that meet regularly at Tees Valley level. Hartlepool will engage at all stages of the local plan production with these local authorities and particularly with Stockton-on-Tees Borough Council and Durham County Council with whom the borough shares administrative boundaries.

Hartlepool participates in the Tees Valley Development Plan Officers (DPOs) Group meetings. These meetings involve planning policy lead officers from all five Tees Valley Authorities are held every six weeks and discuss strategic planning issues such as housing, transport, waste, biodiversity, and the natural and historic environment.

Development Plan Documents that have been completed at a joint Tees Valley level include The Tees Valley Joint Minerals and Waste Development Plan Documents and the Tees Valley Green Infrastructure SPD. Joint evidence base documents have been produced at this level including the Strategic Housing Market Assessment and the Gypsy and Travellers Accommodation Needs Assessment.

At every other DPO meeting planning officers from authorities that have borders with the Tees Valley are invited to discuss cross border issues. These are:

- Richmondshire District Council
- Durham County Council
- North Yorkshire County Council
- Scarborough Borough Council
- North York Moors National Park Authority

Representatives from organisations such as the Tees Valley Combined Authority, Highways England and the Clinical Commissioning Group are also invited to meetings as necessary.

At a more senior level cross border and strategic planning issues are considered at Tees Valley Planning Managers meeting that take place every two months and Tees Valley Management Group meetings that take place monthly.

As well as the issues covered by the regular Tees Valley meetings there will be more detailed cross boundary meetings between Hartlepool Borough Council and Stockton-on-Tees Borough Council during plan preparation to discuss key issues such as development, housing and employment sites at Wynyard and transport issues relating to the A689 trunk road and the A689/A19 junctions. In early 2019 Hartlepool and Stockton Council's began work on a Masterplan for the Wynyard area which was a requirement of both authorities recently adopted Local Plan.

Hartlepool Borough Council is fully committed to other organisations such as the Combined Authority. The Combined Authority is responsible for delivering growth and economic equity across the Tees Valley. Hartlepool Borough Council is represented on the board of the Combined Authority.

A major recent example of co-operation and collaboration was the establishment of the Tees Valley Enterprise Zones, three sites of which were within Hartlepool. The Enterprise Zones were supported by simplified planning process through Local Development Orders that were adopted in April 2012 and since refreshed in 2015. Two of the LDO's (Queens Meadow and Oakesway) expired at the end of March 2018 with the Port LDO being re-adopted in March 2019 and will be in place until at least the end of March 2020 when the Enterprise Zone status currently is in place until.

Parish Councils

Parish Councils within and adjacent to the borough will be invited by e-mail or letter to comment on Planning Policy documents. Officers will attend Parish Council meetings to address queries regarding the proposals.

Preparation of the 2018 Local Plan

The Inspectors final report was received on the 13th April 2018 and the Local Plan was adopted by full Council on the 22nd May 2018.

During preparation of the Local Plan, a series of meetings were held with Stockton Borough Council to discuss key cross border issues that arose regarding housing, employment and transport at Wynyard. A statement of common ground was established and this was referred to during the examination stage of the Local Plan. Officers will continue to hold cross border meetings and targeted sessions with many stakeholders of a strategic nature during the implementation of the Local Plan should strategic issues arise.

Co-operation Relating to the Evidence Base

Hartlepool Borough Council commissioned various reports from consultants as well as produced its own work which fed into the evidence base for the 2018 Local Plan. A number of these evidence studies have been carried out jointly or in liaison with the other Tees Valley Local Authorities where the issue was strategic and crossed the administrative boundary. All Tees Valley Local Authorities were consulted in the production of all our evidence base work.

Summary of co-operation in relation to the Local Plan

Organisation	Nature of Co-operation
Environment Agency	Formally consulted at Issues and Options, Preferred Options, Publication stages of the plan production and at the Main Modifications Stage. Were partners in the development of key evidence base documents including the SHLAA, Water Cycle Study, SFRA Level 1 and Level 2, the SFRA update and the Strategic Sequential Test and the Local Infrastructure Plan.
English Heritage	Were formally consulted at the Issues and Options, Preferred Options, Publication stages of the plan production and at the Main Modifications Stage. Were consulted on key evidence base documents including the SHLAA and the Strategy for the Historic Environment.
Natural England	Were formally consulted at Issues and Options, Preferred Options, Publication stages of the plan production and at the Main Modifications Stage. Were consulted in the production of many of the evidence base documents including the SHLAA, SFRA Level 1 and 2, Tees Valley Green Infrastructure Plan. Key partner in the development of the English Coastal Path.
Civil Aviation Authority	Were formally consulted at Issues and Options, Preferred Options and Publication stages of the plan production.
Homes and Communities Agency (and more latterly Homes England)	Were formally consulted at Issues and Options, Preferred Options, Publication stages of the plan production and at the Main Modifications Stage.
Highways England	Were formally consulted at Issues and Options, Preferred Options, Publication stages of the plan production and at the Main Modifications Stage. Regular meetings have been held with regional representatives of the HA. Highways England has been instrumental in the production of many of the evidence base documents including the Local Infrastructure Plan, the SHLAA etc. Key partner in the management of development at Wynyard. Involved in the preparation and a signatory in a number of Statements of Common Ground.
North Tees & Hartlepool Primary Care Trust	Were formally consulted at Issues and Options, Preferred Options, Publication stages of the plan production and at Main Modifications Stage and for many of the evidence base documents.
The Office of Rail Regulation	Were formally consulted at Issues and Options, Preferred Options, Publication stages of the plan production and at Main Modifications Stage and for many of the evidence base documents
Marine Management Organisation	Were formally consulted at Issues and Options, Preferred Options, Publication stages of the plan production and at Main Modifications Stage and for many of the evidence base documents
Tees Valley LEP (and the Combined Authority)	Were formally consulted at Issues and Options, Preferred Options, Publication stages of the plan production and at Main Modifications Stage and for many of the evidence base documents
Tees Valley Local Authorities	Continuous Informal Engagement and statutory consultations. Formal and informal Engagement at DPO, Planning Managers and Directors of Place Meetings. Engagement at Tees Valley Infrastructure Group. Production of joint evidence base documents. Cross border liaison meeting held with Stock-on Tees Borough Council On-going co-operation with Stockton-on-Tees Borough Council regarding the management of development at Wynyard.

Durham County Council	Were formally consulted at Issues and Options, Preferred Options, Publication stages of the plan production and at Main Modifications Stage A cross border liaison meeting was held with Durham County Council on 12th April, 2016.
Parish Councils	Were formally consulted at Issues and Options, Preferred Options, Publication stages of the plan production and at Main Modifications Stage.
Cleveland Police	Were formally consulted at Issues and Options, Preferred Options, Publication stages of the plan production and at Main Modifications Stage.
The Coal Authority	Were formally consulted at Issues and Options, Preferred Options, Publication stages of the plan production and at Main Modifications Stage.
National Grid	Were formally consulted at Issues and Options, Preferred Options, Publication stages of the plan production and at Main Modifications Stage.
Northern Gas Networks	Were formally consulted at Issues and Options, Preferred Options, Publication stages of the plan production and at Main Modifications Stage.
Anglian Water	Were formally consulted at Issues and Options, Preferred Options, Publication stages of the plan production and at Main Modifications Stage.
Sport England	Were formally consulted at Issues and Options, Preferred Options, Publication stages of the plan production and at Main Modifications Stage.

Appendix 4: Community Infrastructure Levy (CIL)

The main reason for introducing a CIL is that it would provide a means of securing developer contributions from all qualifying developments to ensure funds are available to cover the cost of new infrastructure required to enable development and to help give clarity to developers on what they will be required to contribute as part of a development. However paying the compulsory CIL levy would be subject to viability of the development and will be charged on a scale of rates.

Whilst the Council will keep the situation under review, the present stance is that CIL will not be implemented within the Borough. The Local Authority, as part of the adoption of the Planning Obligations SPD (November 2015), undertook an assessment of viability on different size development types across the Borough, using evidence from viability assessments which have taken place over the past couple of years. The assessments built in the requested developer contributions and looked at varying levels of affordable housing in order to ascertain a deliverable affordable housing target for the SPD and emerging Local Plan.

The assessments illustrated that the affordable housing need of 44% left developments unviable. A range of scenarios were looked at which identified that a target for affordable housing of 18% should be set.

In undertaking the work and in assessing viability of developments over the past couple of years, it has become apparent that there is very little viability on Brownfield sites within the urban area and to apply CIL to those would render them unviable and therefore prohibit development in the Borough. Even on Greenfield sites both within and on the edge of the urban area viability has had to be considered, and has differed, on a site by site basis. As such it is not considered that the adoption of CIL in the current market conditions would be viable and would likely constrain future housing growth within the Borough due to concerns over viability of developments.

This position was highlighted at the Local Plan Examination and it was confirmed to the Planning Inspector that CIL would not be taken forward as part of the Local Plan and that s106 agreements would continue to be used to secure planning obligations where viable. A Deliverability Risk Assessment was produced to support the Local Plan and illustrate the deliverability of certain types of development when contributions were factored in. This was agreed by developers at the examination.

Appendix 5: Developer Contributions S106 received funds 2019/20

Planning reference	Amount received	Date received	Money spent Y/N	Interest
