Craft activity – Chalk Art Activities

Number 1

Have hours of fun by drawing a giant chalk art town and roadway all over your driveway.

Draw a twisty, turvy roadway complete with a yellow dotted line in the middle to divide the lanes. Then draw buildings, houses, trees, and whatever else you would like in your town.

Once you have it all drawn out, dig out your toy cars and drive all over their chalk art town.

Number 2

Move about with your very own chalk art “obstacle” course.

Write out instructions like “turn in a circle,” “touch your toes,” “jump up and down three times” along with some cute directional pictures to follow along their your custom course.

You can also draw squiggly lines to follow, straight lines to jump over, and spirals to spin on. The possibilities are endless.

Number 3

Drawing fun chalk art scenes as a character makes a fun afternoon activity – and makes for some fun photos!

Draw butterfly or bird wings and lie down in the middle as if you are the body of the butterfly or the bird and get someone to take a photo.

Try your hand at an outer space scene and pose like you are bouncing on the moon. Next, draw an umbrella to keep out some chalk art raindrops and lie down and pose like you are holding the umbrella handle. You could even draw an underwater scene and lie down on the ground and pose like you are swimming through the ocean. Really commit to the scene!

Number 4

Using the chalk and the black card in your packs create fireworks.

DIY Fidget Spinner Instructions

www.redtedart.com

1. Choose which template you would like to make and cut it out!

2. Trace onto your cardboard – old cereal packets are idea, but you will need two layers glued together

3. Once you have your basic shape decorate it whatever way you want – doodle on it, paint on it, stick more colourful paper on it... your imagination is the limit

4. Take 2 or 3 1 penny coins (or coins of similar denomination from your country). You will need 2 for simple fidget spinner and 3 for all other shapes. If you wish, you can replace these coins with buttons (the heavier the better) or small bolts.

5. Glue your coins into place and let dry.

6. Use your template to help locate the centre of your fidget spinner and make a hole with a pin. Using smaller scissors, make the hole bigger – until your toothpick fits in comfortably and loosely. Test the spin. If it keeps getting stuck, make the hole a little bigger

DIY Fidget Spinner Instructions (cont)

www.redtedart.com

7. Now cut out 2-4 cardboard discs (if using cereal box cardboard you will need 4 in total, glue two together).

8. Again take your pin and make a small hole. Use your toothpick to widen that hole, so the toothpick fits in tightly.

9. Glue the first disc to the end of your toothpick.

(a hot glue gun dries quickly and is great if making this in groups)

10. Insert the toothpick into your fidget spinner. Take your second disc and slide down the other side of the toothpick and glue in place.

11. Snip off any protruding toothpick.

Craft Activity – ‘Create your own comic book’ template

Creative Activity – Paper and pencil game: Heads Bodies and Legs

Players:

Two or more

Also known as:

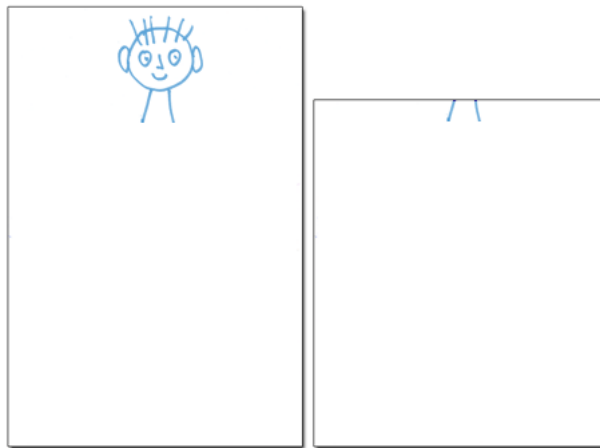

Picture consequences

Players take turns in drawing a head, a body, and a pair of legs, without letting the other player see them. The point of the game is the fun of seeing the resulting pictures.

Description:

Each player starts with a small piece of paper - half of A4 or US Letter is about right.

Each player begins by drawing a head in the top third of the sheet, and then folds over the paper so just the neck is showing:

The players then exchange pieces of paper, taking care not to let the other player see their drawing.

Each player then draws a body in the centre third of the paper, joining the neck lines, and folds over the paper so just the legs are showing:

Again, the players exchange pieces of paper.

Finally, each player draws legs and feet, joining the leg lines, and folds the paper so nothing is visible.

Finally, after exchanging again, each player opens their piece of paper to reveal the whole drawing:

Variations:

An amusing addition is to add an extra stage in which each player folds the page to leave a blank strip at the bottom of the paper.

After exchanging, each player writes a name for the drawing in the blank space.

Creative Activity – Create your own jigsaw puzzle

Creative Activity – Graffiti bubble letters

Step 1: Draw the letters, B A D, with a pencil.

Step 2: Now draw circular shapes around the lines. On the curved lines in B and D, break your circular bubble shapes into segments.

Step 3: Draw around the outside and inside edges with a dark marker.

Step 4: Erase the pencil lines. Add little lines inside to make the letter more bubbly.

Step 5: Redraw the letters close together, overlapping the edges. You can cut them out and move them around if you want, then trace them.

Step 6: Add 3D effects.

Creative activity – Secret code

Create a secret code!

Draw a symbol underneath each letter, then on the next page, write a secret message in code:

A	B	C	D	E	F
G	H	I	J	K	L
M	N	O	P	Q	R
S	T	U	V	W	X
		Y	Z

Creative activity – Art gallery

Players:

Two or more

The players take turns in naming an object which they each have to incorporate into a drawing.

Description:

This is a non-competitive picture-drawing game that's great for playing with children. It's also good as an ice-breaker with adults.

Each player starts with a blank sheet of paper. The players then take turns in naming an object, which all players must incorporate into their drawing. Players should wait until everyone has finished drawing before naming the next object.

At some agreed point, usually when one player cannot fit any more objects into their picture, everyone agrees to stop and reveal their drawings.

Example:

For example, if the players named: "Sun", "Star", "City", "Tree", and "Plane", one player's drawing might look like this:
