

Three Year Plan

Easy Read Version

Our Hartlepool three-year plan.

1

Supporting healthy and independent lives.

2

Keeping people safe.

3

Strong communities with opportunities for all.

4

A green and healthy place to live.

5

A great economy that supports business and good jobs.

6

A council that really supports Hartlepool

1

Supporting healthy and independent lives

Our borough will support people to make healthy choices about:

- Eating well and losing weight

- Enjoying all kinds of exercise

- Stopping smoking

- Using illegal drugs

- Drinking too much alcohol

We will support people with long term conditions like diabetes and heart disease to manage their health well.

Our Hartlepool services will support people with health conditions to live independent lives in their community.

We will support people to feel good about themselves and their lives.

We call this wellbeing.

We will work with people and families in need to make sure they have food to eat. We call this food security.

The Hartlepool community will support children looked after by care services to:

- have the best care possible
- have much better chances in life

When people come to the end of their lives, we will support people and their families with good services. We call this having 'good end of life care'.

We will do all we can to protect children from harm and abuse.

We will support children with disabilities to have more support in their life.

We will work with all our diverse communities, so they know how to keep people safe from abuse.

We will reduce anti-social behaviour.

We will tackle all types of violence including street attacks and abuse in the home.

Our services and community will work with vulnerable families and those risk of becoming homeless to give the support they need.

We will have great schools supporting children and young people to have a great education.

Our schools and colleges will help young people:

- Go onto higher education like college and universities
- Get an apprenticeship
- Get a job

Our communities will:

- Have all the things they need like transport, doctors, and shops.

- Have lots of chances to do activities and hobbies.

- Be places where people don't have to feel lonely and isolated.

- Be supported by great community groups and charities. They can help people with lots of chances to do voluntary work.

Hartlepool will become a green borough and help the fight against climate change.

- Great recycling across the borough.
- Cleaner transport making less pollution.
- We will look after our parks, streets, and other green areas. This will help people enjoy nature.

We will have high quality and affordable homes that meet the needs of all our residents.

All our ideas will help to:

- Make the Hartlepool air cleaner
- To have cleaner neighbourhoods

The council and business will work together as a team to:

- Make more and better jobs

- Have good, skilled workers

- Have more business grow and come to Hartlepool

Our Hartlepool will:

- Have lots of great events for local people and for visitors
- Have lots of great places to visit

- Strong leaders that will make the three-year plan work

- Always put the needs of the people of Hartlepool first

- Employ people from all the different parts of our community

- Help people to use online services

- Share great stories about Hartlepool so everybody gets to hear about our great achievements.

Making the Three-Year Plan Work

Hartlepool Council will lead on the 3-year plan.

We will work closely with our partners from the community and business to put the plan into action.

We will always listen to the people of Hartlepool to find out what you think about things.

We will make changes if we need to.

Together we will make Hartlepool a healthier, greener, and more prosperous place to live, work and visit.
