

# RETROFIT SURVEYOR/ ASSESSOR QUALIFICATION

## COURSE DETAILS

Building Heroes have introduced a Retrofit Surveyor/Assessor course in response to the 2050 decarbonisation targets of the Climate Change Act and to meet the skills gap within the energy and sustainability industries. This qualification is completed over 5 consecutive weeks and will develop skills in assessing the condition, occupancy and significance of homes in line with the PAS 2035 standards.

## CONTENT COVERED

- Determining the construction and conditions of a dwelling
- Identifying Energy Efficiency Measures constraints
- Identifying any defects or structural issues
- Identifying any Energy Efficiency Measures already installed
- Completing a measured survey of the dwelling
- Report preparation
- Introduction to the principals of PAS2035

## ELIGIBILITY

Military service leavers (*must be within the last 3 months of service when attending*), Veterans, Reservists, and immediate family members 19+.

The programme provides Level 3 qualifications and is delivered as a blend of classroom and workshop activities. Recruitment for these roles is high, and these positions have a typical starting salary of £30-35K per annum.
