	Update on guidance and progress	
	PT updated members that Lisa West has been appointed as a dedicated Programme Management Officer from 1 st October for LTPT to support colleagues and the voluntary and community sector (VCS) in establishing and delivering the programme.	
	PT provided a verbal update from Gemma Ptak, Assistant Director (Preventative and Community-Based Services) at HBC, who has lead responsibility for engagement with the VCS. An initial session with Officers and the VCS took place in July, with around 20 representatives from VCS organisations in attendance. These representatives are engaging on the development of the LTPT programme.	
	The VCS has agreed to draft the Vision Statement, which is a necessary criteria before developing the Investment Plan for the programme. The draft Vision Statement will be circulated to members once it has been signed off by all organisations.	PT
	A follow-up session is scheduled for the end of September, where clear focus areas for investment will be established. This session will also discuss expectations and processes while continuing to build on relationships.	
	The Chair queried whether there had been any indication from government that this programme is to be discontinued.	
	JG stated that, although there had been no indication from the government either way, significant updates were unlikely until after the budget on October 30th. In the meantime, ongoing work and the development of local relationships should continue.	
	The Vice Chair enquired about public communications and emphasised the need for transparency regarding the pausing of the programme and suggested considering the inclusion of this information on the Town Deal webpage.	

NO	DETAIL	ACTION
	BB agreed with the Vice Chair's suggestion to include information on the Town Deal	
	webpage and also proposed a more formal approach through Cllr Hargreaves and the	
	VCS to articulate the programme's focus. It has been suggested that communications be	
	created for various VCS organisations to share the programme's message. BB will follow	
	up with Gemma Ptak, who is leading the programme.	
	Membership of Town Board	ВВ
	PT confirmed that the VCS understands the need to be appropriately represented on this interim Town Board. They plan to propose two to three representatives from the sector, but the specific individuals have not yet been determined. The proposals will be presented to the Board once these representatives are confirmed.
