5.	LONG TERM PLAN FOR TOWNS (LTPT)	
	GP presented slides and gave a verbal update – slide presentation to be circulated to board members post meeting	LG
	Ministers have renamed the previous government's 'Long Term Plan for Towns' as the 'Plan for Neighbourhoods'	
	Under the programme, the 75 towns that were named as recipients will continue to receive up to £20M over the next ten years to improve their places with the list of approved interventions being increased	
	Board Membership - Board membership work is continuing, with seven seats filled by community leadership, providing great strength and breadth of voice	
	Financial Considerations - GP took members through a financial overview	
	The prospectus has been issued which has broadened the scope with further guidance to follow	
	JB confirmed there has been a shift from government in the narrative around the prospectus and the name is very much linked with that agenda. There is a real drive from government not to be so prescriptive about how this money should be used. The government are very keen to empower communities	
	JB mentioned the North East has the highest proportion of neighbourhoods being mission critical, Hartlepool being one of them, in the Independent Commission for Neighbourhoods report chaired by David Hilary Armstrong.	
	DH asked GP what funds were spent on LTPT whilst the Town Deal Board had oversight as the Board would need sight of this if it was accountable. BB highlighted that the LTPT funds were spent when there was no oversight for the Town Deal Board and, therefore, no information is needed for the Board.
