Introduction

1. Section 88P of the School Standards and Framework Act 1998 (the Act) requires every local authority to make an annual report to the adjudicator. The Chief Adjudicator then includes a summary of these reports in the annual report to the Secretary of State for Education. The School Admissions Code (the Code) sets out the requirements for reports by local authorities in paragraph 6. Paragraph 3.30 specifies what must be included as a minimum in the report to the adjudicator and makes provision for the local authority to include any other matters. Paragraphs 6 and 3.30 of the Code require that each local authority publish its report locally.
2. **This year's report must cover the 2023/2024 academic year and be submitted to the Office of the Schools Adjudicator (OSA) by 31 October 2024.**
3. Please note that, in response to feedback on the previous template and in the light of consultation with a group of local authorities, changes have been made to various sections of this year's template.

Guidance on completing the template

4. We have included all the guidance on completing specific parts of the template in this section. There is no requirement for local authorities to include the introduction and the guidance in their published reports, but they are free to do so if they wish.
5. We should be grateful if in completing questions which ask for information about primary and secondary schools and/or pupils, local authorities would follow the approach to classification of schools used in statutory provisions and in the Department for Education Statistical First Release¹ and the Education Middle School (England) Regulations 2002².
6. The Code sets out some minimum requirements on the contents of each local authority report stating that each must cover as a minimum "information about how admission arrangements in the area of the local authority serve the interests of looked after children and previously looked after children, children with disabilities and children with special educational needs, including any details of where problems have arisen."
7. The Department for Education's aim through the annual reports from local authorities is to understand how well the admissions system is working nationally, rather than to hold individual local authorities to account. By understanding the effectiveness of the system, including outcomes, the Department hopes to identify areas where the admissions system is working well and areas where it could be improved. With that in mind, when the template asks, "how well does the admission system serve the needs of

² [The Education Middle School \(England\) Regulations 2002](#)

children,” the Department appreciates that it is asking local authorities to make a subjective judgement, in the understanding that everyone’s experience with the admission system will be different. The Department encourages local authorities in responding to the open questions and spaces for open comments to set out challenges that are proving difficult to overcome.

8. Guidance on specific questions and/or meaning of specific terms in this report:

- a. “in-year admissions”: This means admissions (that is children admitted to a school and not applications for places):
 - i. to a year group which is not a normal point of entry for the school concerned (for example to Year 2 for a five to eleven primary school); and
 - ii. after the end of the statutory waiting list period (31 December) to a year group which is a normal year of admission for the schools concerned (such as Year R and Year 7).
- b. Not applicable means that there were no children falling within the relevant definition.

9. We welcome all comments that local authorities make in the comment boxes and we aim to reflect those comments in the Annual Report, but we ask for the comments to be entered under the right headings. Section 3 invites comment on any other matters not specifically addressed in this template if local authorities wish to do so. The views expressed in previous years also remain a matter of public record.

10. We ask that where possible, you return the template in Word instead of PDF formatting. A number of you have commented on the formatting of the template and we have tried to make it as accessible as possible, but we are aware that some local authorities use different versions of Word.

11. Where questions request a comparison with the previous year, any new local authorities formed as a result of reorganisation should note this on the form.

Section 2 - In-year admissions

A. Which of the following best describes the overall level of challenge for your in-year admissions in 23/24 compared to 22/23?

Phase	Much less challenging	Less challenging	No change	More challenging	Much more challenging
Primary			✓		
Secondary					✓

If you wish, please explain the factors that have changed the level of challenge for your in-year admissions:

We have experienced academy schools refusing in year admission applications when there have been places available in all year groups. Mainly secondary schools.

Academy schools are not adhering to 2.30 School Admissions Code by providing outcome of application (in writing by 10 or 15 days) and not providing refusal letters within appropriate timescale.

We are aware that the PAN only relates to 'relevant year groups'. We have issue with schools reducing the admission limit in other (than relevant) year groups without warning, or reason, or full information and without informing what the limit actually is. This is creating issues for the LA in fulfilling pupil place planning/sufficiency duties as well as being unfair to, and disadvantaging, parents.

Schools (OAAs) are not providing parents with sufficient reason their child has been refused a place, merely stating it will prejudice the provision of efficient education at the school.

We would fully support the introduction of a national co-ordinated process for In Year Admissions, to ensure the safeguarding of children. The current school admissions code allows own admissions authorities to exploit the system by refusing admission of place when it chooses and offering the right of appeal, knowing that many disadvantaged families do not understand or do not have the confidence or ability to lodge an appeal. Leaving at risk children out of school for long periods of time, disadvantaging them further.

Schools (OAAs) are misusing point 3.10 of the School Admissions Code.

We have had significant increases in the numbers of in year admission requests, particularly from families arriving from overseas.
